TURF, FARM AND HOME.

VOL. XVI.

AUBURN, MAINE, FRIDAY, MAY 4 1894.

NUMBER 44.

BOURBON KING, BY BOURBON WILKES.—Owned by F. W. Chase, Haverhill, Mass.

BOURBON KING.

WE present to our readers this week a fine cut of the stallion Bourbon King, owned by Mr. Frank W. Chase of Haverhill, Mass. This fine young horse is four years old, is well proportioned, with nice clean limbs, a smooth, easy gait, and when put in training should make a great turf horse. He was purchased two years ago by Mr. Chase, and has had one season in the stud, and for stock purposes has two important features viz., fine breeding and good size, features which breeders should never fail to notice, for if he fails in producing

speed he gets size, which is always in demand at a good price.

Bourbon King, we are pleased to note, is receiving a very liberal patronage in the stud, which shows his services are appreciated. Haverhill being quite a horse breeding center we shall expect to see great results from this highly bred stallion. We respectfully refer you to our advertising columns for his extended pedigree.

There are 1033 entries for the Kentucky \$15,000 Futurity, for foals of 1894. The best mares in the land have been named. The breeders everywhere have shown their appreciation of this great event.

Present appearances indicate that a very choice lot of stock will be offered at the New England Breeders' sale this month,

Mr. Bonner has been asked to exhibit Maud S. at the next Fleetwood meeting. No horse, perhaps, ever seemed so keenly alive to the homage paid by an enthusiastic public as did the ex-queen in the days when she was the cynosure of all eyes, and we can imagine with what appreciation she will once more, as of yore, gaze inquiringly into the grand stand as it shakes with applause, as it surely will if the mighty daughter of Harold is paraded before it. Turf kings and queens come and go, but Maud S.'s fame grows no dimmer as the years flit by.

E. H. Neally, secretary of the Waldo and Penobscot Agricultural Society, will send his mare Hippona (2.19¼) to Terre Haute to be bred to the great Axtell. This mating ought to bring a very fast animal, as the mare is much faster than her record.

The day has never been so dark that a wellbred, sound, good individual, of reasonable action and other attributes essential in a road horse, would not sell for a fairly remunerative price and we are not in the least inclined to deplore the fact that pedigrees without horses, horses without pedigrees, and well bred but ill conditioned culls no longer sell for false prices.—*Mirror and Farmer*.

M. T. Hunter, a mechanic residing in Detroit, Mich., has invented a novel horseshoe. Originally the shoe is a square bar of steel and is made with a die. When finished it has the appearance of a three-cornered bar, with a rim at the top through which the nails are driven. It has no calks, the sharp edge, or corner, extending clear around. So far the shoes have been merely made for some friends, as the inventor has a competence and works in his shop as a pastime.

After Scarlet Fever

Some trace of the venomous disease is almost sure to remain in the blood to torture the life of the victim whom it does not wholly conquer. To thoroughly expel this and all other impurities from the blood, Hood's Sarsaparilla is the best medicine known. Hundreds of young people owe their good health to it. Charlie Foss is one. Read his father's letter:

"In the fall of 1889 the members of our household were afflicted with scarlet fever. Charlie, three years old, was left with an

Abscess in One Ear

which affected his hearing. The abscess grew worse, it discharged freely and the matter was quite offensive. We were obliged to use a syringe twice a day. After more than a year physicians decided that it might take years to heal the abscess, and it was likely he would

Always be Deaf.

This was a great sorrow to us, and almost discouraged, we wrote a letter of inquiry to C. I. Hood & Co., Lowell, Mass. They replied stating that others similarly afflicted had been cured by Hood's Sarsaparilla; so we decided to give it to our boy. There was a great change for the better before he had taken two bottles of Hood's Sarsaparilla. The result has been more than

HOOD'S Sarsaparilla CURES

we dared to hope for. It has not only effected a perfect cure and healed the abscess, but has restored his hearing. We feel thankful to Hood's Sarsaparilla." RANDALL M. FOSS, East Limington, Maine.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients. 25c.

THE WILSON BILL AND THE HORSE BUSINESS.

A western turf journal calls attention to the position the champions of the Wilson bill have taken against horsemen and their interests. It says that this famous tariff bill now in the senate of the United States is not ordinarily a subject of thrilling interest to horsemen, but there is one clause therein which if it be embodied in the bill as finally passed (if it ever does pass) will work great loss and hardship to not only horsemen in Canada, but to all racing associations that have drawn entries from the Canadian side. The Wilson bill has been called, and was presumably intended for, an approximately "free trade" measure, but in the particular clause referred to, as amended by the senate, it is not only more protective than the famous McKinley bill, but is almost prohibitive.

We have received from the Government Printing Bureau a volume giving paragraph by paragraph the two bills, and turning to the clause affecting international racing between the United States and its closely allied neighbor north of the "imaginary line," the change affecting the horse interests of both borders is readily seen.

Section 483 of the Tariff Act of 1890 (the present law) commonly called the McKinley bill, provides as follows:

Animals brought into the United States temporarily for a period not exceeding six months, for the purpose of exhibition or competition for prizes offered by any agricultural or racing association; but a bond shall be given in accordance with regulations prescribed by the secretary of the treasury, etc.

The corresponding paragraph in the Wilson bill, as presented to and passed by the house of representatives, is identical with the above, but it comes out of the hands of the senate finance committee reading thus (Sec. 374):

Animals brought into the United States temporarily for a period not exceeding six months, for the purpose of exhibition or competition for prizes offered by any agricultural association; but a bond shall be given in accordance with regulations prescribed by the secretary of the treasury, etc.

It will be seen that the words "or racing" have been omitted, leaving the proposed law to provide that Canadian horses may be brought to this country free of duty for six months for the purpose of competition for the prizes of agricultural associations, but not for the purpose of competing for purses and stakes offered by racing associations. The man who owns a draft horse, a hackney, a hunter, or a high jumper, or the fortunate possessor of a large and impressive steer, or a rotund, obese and inspiring hog, may cross the boundary to capture American prizes if he can, but to the owner of a trotting or pacing horse, who is willing to contribute his share to the treasuries of the American associations and take his chances with American competitors, the door is barred. Such is the decision of the august gentlemen of the senate finance committee—such their conception of fairness to all branches of agricultural industry.

All the associations of border towns have been assisted largely from the Canadian side in the way of contributing entries to their stakes and purses, and, on the whole, "the balance of trade" has been with the American side. Though the Canadians have won a fair share of money on this side of the line, in the aggregate they have contributed more than they have taken away. They go through all the great circuits, and all New England in the trotting season is permeated with Canadian trotters who are assisting both in the interest and the revenues of the American fairs and race meetings.

Furthermore, Canada has been our best foreign customer for harness horses, and one of the chief inducements for Canadians to buy the produce of American stock farms has been the prospect of

trotting what they raise therefrom on the American tracks. The clause of the Wilson bill referred to will not only shut off the Canadian money that flows into the coffers of the agricultural fair and racing associations, but will also turn away the best foreign customers from our stock farms.

WOLFBORO, N. H., AFFAIRS.

Ichabod Berry's horse, wagon, and harness were borrowed sometime during Monday night, and the parties have as yet forgotten to return them. He would very much like to find the team, which consisted of a bay horse, two cling fasts, goes sound; Concord wagon and brass trimmed harness.

Our track is dry on one side and we can soon do our jogging on it.

John L. Peavy has sold his Watson colt to George Willey of Rochester; price said to be \$300.

Georgé Willey sent a three year old Bayard Wilkes mare to G. L. Martin this week to be handled some. This mare is very promising.

Rev. Mr. Pinkham has traded his black mare recently purchased in Lewiston, Me., for the Virgil S. colt which Frank Osgood bought at the McIntire sale.

We see Mr. McLucas is jogging Scipio Jr., and he is acting very slick, going better gaited and stronger than ever before. He ought to go into the list this season with no trouble.

Daisy W. is jogging into fine shape and will make it warm for those in the 40 class.

The owners of the track, I. W. Springfield, and Charles F. Parker, very kindly offer to let the boys use it for jogging purposes, etc., if they will keep it in shape and keep their heavy wagons off of it. A small donation from each one will do the work.

Frank Plummer, Dover, N. H., has purchased the fast side-wheeler Schuyler. He will be put in training at once.

Frank Osgood is very soon to occupy his stalls at Rochester fair grounds.

The Result of Merit.

When anything stands a test of fifty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steady increasing sale. Few, if any, medicines have met with such continued success and popularity as has marked the introduction and progress of BRANDRETH'S PILLS, which, after a trial of over fifty years, are conceded to be the safest and most effective purgative and blood purifier introduced to the public.

That this is the result of merit, and that BRANDRETH'S PILLS actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest.

BRANDRETH'S PILLS are sold in every drug and medicine store, either plain or sugar coated.

McFADDEN'S PEDIGREE BOOK.

Every breeder of good stock should use this book. The most simple, compact and correct method of recording pedigrees ever used. Published in book form, neatly bound in cloth, 100 pedigree-blanks in each book. Price \$1.00 per copy, sent postage paid, to any part of the United States or Canada. Send for illustrated circular to TURF, FARM AND HOME, Auburn, Me.

The lovers of home and happiness would cheerfully recommend their needy friends to go to the Maine Keeley Institute at Deering for treatment.

LADY BOOKMAKERS AND BETTORS.

When the existence of women's pool-rooms was discovered in New York, they were regarded as very much of a novelty, but, judging from an interview in an English exchange, the game, conducted in a more roundabout but civilized fashion, is an old one in England. An agent for a "lady" bookmaker in London said:

My employer is a fashionable lady milliner residing not far from Piccadilly. She is also a lady bookmaker in a very nice way of business. All her clients are ladies, and I should estimate that she has about sixty; they go to her place of business ostensibly to see about their dresses; but more often than not they go for the purpose of backing horses. Any bets my employer doesn't care about taking herself I arrange for her at the clubs.

You would be astonished if you knew the number of ladies—some of them mere youngsters, too—who lay their money on horses every race day. Why, I've seen girls of sixteen years of age put £5 on a horse that had no ghost of a chance of winning. They do it chiefly through a shopkeeper, such as a hair-dresser or a mantlemaker.

I have known a young married lady lose £40 a week regularly for months, while another I came across—an old lady of seventy—made a small fortune in a couple of years. A few of them have "infallible" systems of their own, while others club together and plunge heavily. Taking the whole lot together they must lose between them £100 a week sometimes.

When a woman once takes to betting she acts as if she were in a fever. They're that mad they don't know what they do, and when they lose three or four days running—well, if my employer weren't fairly muscular, she might have to retire from her profession slightly damaged.

How's This.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, Ohio:

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transaction and financially able to carry out any obligation made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, Ohio. WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all druggists. Testimonials free.

Mr. Luques' horses at Biddeford are having their road work daily now, and are looking finely. The stallion Cebolla is in fine condition and is already serving some fine mares and has some booked for him from outside the state, which shows the public interest in him as a sire. His full brother Conduct, is considered by prominent horsemen, as one of the most promising of Maine two year olds, and he is entered in the stake events of the coming season. He is very finely gaited and from his breeding, ought to develop very fast. The mare Frances L. who last year dropped a fine filly by Pure Wilkes, is to be entered in some of the races this season, and is also to be bred to Cebolla, she was sired by Beavoir by Mambrino Russell out of Kitty Dean by Gideon. Second dam Lady Edgecomb by Gen. Knox. This is a fine bred mare as her breeding shows, and she is also speedy. She has never been worked before as Mr. Luques bred her as a three year old to Pure Wilkes. There are also several others which will be spoken of at another time.

A NEW YORK BREEDING ESTABLISHMENT

Etwinoma is the name Burdick & Son have given their stock farm at Hampton, N. Y. It is one of the best farms in Washington county; very productive, and the location is excellent. The Burdicks are widely known as manufacturers of stove specialties at Albany, N. Y. With the improvements already made, and others already begun, they will soon have a model summer home. They both are earnest advocates of speed contests, and are always ready to race in good company. They keep a few choice Jersey cows. Their other stock is horses, of which I will give you a short description. Their young stallion, while not so fashionably bred as they would like, is a grand individual. He will be three years old in June, stands 15-2½ hands, will weigh 1000 pounds; has the best of feet and legs, beautiful bay, no white marks, and could trot a quarter last season, just in road condition, in 40 seconds. He is one of the kind that ought to get large, stylish roadsters with some speed. He is sired by Egmore, by Col. Egbert 2.30, dam by Daniel Lambert Jr. Daniel Lambert Jr., is intensely inbred, he being by Daniel Lambert, and his dam was by Ethan Allen. Next we come to Bonniel 2.17½, in a race which she won last year as a three year old. She is very elegant in appearance, and trainer Nelson Hyde says she is just as good as she looks to be. She will be started in a few stake races. She is by Bonnie Boy, son of Patchen Wilkes 2.29½, dam Ardelle, by Rochester 2.31½; second dam Lady Belmont, sister to Sherman 2.23. Next comes Orange Bud 2.21½, one of the gamiest campaigners that ever faced a starter; can trot our half mile tracks in 22 or 23 every crack, and always comes the last quarter with a rush. Then comes a two year old, Edna B., a beauty, with a gait like a seasoned trotter. She is 15-2 hands, chestnut in color, two white ankles behind, sired by Egmore, dam Heroine 2.30½. Then comes Springbrook Maid, three years old, a mare any man would be proud to breed. She is chestnut in color, 16 hands high, will weigh 1025 pounds; an elegant road mare, no weights or boots; can show three minutes handily. One of the kind old and young turn and look at as she moves along the road. She is by Egmore, dam by Jack Lambert. Florence C., 16 hands, weighs 1000 pounds, drives nicely with her. She is four years old, sired by Lambert Chief. Then we are shown Mr. Norman Burdick's team, Captain Rich, four years old, by Onset, full brother to Acolyte 2.21, by Onward, dam by American Ethan, and Dick B., by Almont Star 2.28, dam full sister to Neta Pine 2.23, and Morgan Ethan 2.20½.

First among the brood mares comes Miss Cobb. She is a low, blocky mare and looks just like the cut of Princess 2.30, that appeared in the American Horse Breeder a few weeks since, as she by breeding has a perfect right to, being by Maxey Cobb 2.13¾, dam by Happy Medium. This is rich breeding, and the mare is just as good as the breeding. Some breeders would think they had drawn 100 cents on a dollar could they but see her weanling colt by Robert McGregor 2.17½, a perfect made one and all horse now. When he gets age Messrs. Burdick will have a stallion fit by breeding to head any stock farm in the land. Then comes another rich one, Dispute, by Despot, son of Dictator, dam by Phil Sheridan 2.26, with foal by Lenox B. 2.27½. A two year old out of this mare trotted last year in 2.32. Then Dolly Ann, by Jack Lambert, he out of the dam of Highland Grey 2.28, dam by Darkey, the sire of Highland Grey 2.28. This mare is a perfect pattern of the old-fashioned Morgan, and Mr. B., who used her for a road mare, says until after she was seven years old he never knew her to walk a step in harness. She is the dam of

Springbrook Maid before mentioned. Goldust, a full brother, and Ruth, a weanling, an exact counterpart of the Maid, and Dolly is soon to foal to Barney McGregor, by Robert McGregor, dam by Young Jim. Her foals are all very promising. Then we have Drom, record to wagon when heavy with foal, fourth heat of a race, which she won, 2.42. She is by Superb, son of Ethan Allen. This is a 16 hand, 1100 pound mare, of great nerve and endurance; not very pleasant to drive when the thermometer is 20 below zero, as you would have no time to whip your fingers unless you came to an open shed where you could turn in and stop. She lost a mare colt last year by Meander 2.26, (the sire of Pamlico 2.10½). Last but not least we have Heroine 2.30½, to high wheels, in a race which she won, beating Altha 2.24½, by Ben Franklin, Hiram K. 2.30, and other good ones. Heroine at that time was carrying the mare before mentioned as Edna B. Any one who would see her driven would be a firm believer in developed ancestors. Myra G., by Egmore, dam Heroine 2.30½, and Lady Onset, by Onset, dam Dolly Ann, complete the list with one exception, Mattie Horn, a weanling filly. Superintendent Hyde says as he turns her in the paddock she will speak for herself. Well, I say this. She has been sick all winter, but remember the name. She can step fast right now; by Matterhorn 2.19½, over a half-mile track, dam by American Ethan; bred very much like Pamlico.

OUR CALENDAR FOR MAY

Borrowed from "Good Roads."

Farmers should now cut their eye teeth. Also the brush along the road. Field stones are fit to pick. Haul them to the street And have them run Through the crusher. If you don't know what To do with them then Read the TURF, FARM AND HOME, \$1.00 per year. Now rake up the dead leaves And make a bonfire of them. Horsemen Can have the TURF, FARM AND HOME For only one dollar. Matthew Arnold died 1883. Single copies 3 cents. Do you use wide tires? Now is the time to subscribe. Send Postal Note. But stamps will do as We use lots of them. Don't shear sheep yet. You might be a lamb yourself some [time]. Now get ready to plant corn. But don't forget the roads. We can do you good And we will make proper use of your [money]. How about your neighbor? We want him too.

From a Prominent Trainer.

Mr. Alex. Patterson of Hodrick, Iowa, writes under date of April 10th as follows: "After a thorough test of Quinn's Ointment I will say that it is the only preparation I have ever used with satisfactory results and is what horsemen have long been in need of. My stable will never be without it." For curbs, splints, spavins, windpuffs and all bunches use Quinn's Ointment. Guaranteed to give satisfaction. Sent by mail or express prepaid upon receipt of \$1.50. Address W. B. Eddy & Co., Whitehall, N. Y., unless you can obtain from your druggist.

"It pains me very much to spank you, Johnny," said his mother with deep feeling, "and I shall have to turn you over to your father. His hands are harder."

SHERMAN MATTERS.

MR. EDITOR:—Spring is so late in Aroostook that very little has been done. The roads are almost impassable from mud; still I think the spring is earlier than last. Castration seems to be the order of the day. All of the one and two year olds that I know of have been gelded. Frank Allington has added Primo, by Messenger Wilkes, to the list of geldings. He was a fine horse six year old, good gaited and should have trotted fast, but seemed to lack ambition; would not trot under the whip as well as without. I think perhaps as a gelding he will trot fast. There are quite a number of stallions for service about here. Lantier Imp. Percheron, service fee \$15, weight 1440 pounds, very fat, cost a company \$2000; hope they will see their money again. Another stallion here is a black horse, 1920 pounds. If size is worth anything he ought to fill the bill.

W. A. Sawyer has Glenarm 2.23½. He is looking finely; has just begun stud service. He weighs 1157 pounds. It is early yet, but in a short time the roads, woods, and fields will be full of them, and each one will be the best. I think Artist, by Dictator Chief, will stand here a part of the time, but the feeling is very much against raising many colts. I think now is the time to breed. If one has a good brood mare, use a good stallion, and barring accidents, the colt ought to pay all expenses and leave a good margin besides. Of course we can't expect to obtain prices that have been realized in the past, and we ought not to. It was an unhealthy state of affairs and we are suffering the penalty of it. It is and always has been the case that when certain classes of stock are the lowest there is the most of it for sale. I have a case in mind. Some twelve or fifteen years ago sheep and lambs were so low that they could hardly be given away, and the result was that they were disposed of in one way and another till there was less than one-half as many wintered as usual. The next fall they were very high and none to be bought, and so it goes. Buy dear and sell cheap will ruin most any farmer. Those who have likely colts to sell in '97 will get good money for them.

Hood's Cures.

In saying that Hood's Sarsaparilla cures, its proprietors make no idle or extravagant claim. The advertising of Hood's Sarsaparilla is always within the bounds of reason, because it is true; it always appeals to the sober, common sense of thinking people, and it is always fully substantiated by endorsements, which in the financial world, would be accepted without a moment's hesitation.

Read the testimonials published in behalf of Hood's Sarsaparilla, all from reliable, grateful people.

They tell the story. Hood's Sarsaparilla Cures.

A BATH STABLE.

Your postal of the 21st, received. I have two colts. The oldest, five this spring, is by Winthrop Wilkes; the second three years this spring, is by Messenger Wilkes. They are looking finely, both bay, trotters, and will make an exceedingly handsome pair. I do not intend to drive them this season, but shall put them at pasture in a few days. The mother of these colts has a filly at her side by Col. West, and we look for something in this filly to be valuable. Business being so dull and unsatisfactory we do not intend to give attention to horses, but trust the next year will be much better.

WM. ROGERS.

Hood's Pills become the favorite cathartic with everyone who tries them.

A BREEDER IN WESTERN MAINE REPORTS.

WEST KENNEBUNK April 27.

MR. EDITOR:—My horses came through the winter in fine shape. Rochefort is in splendid condition, and is having a good run in the stud. I am jogging him just enough for exercise to keep him in good condition. He shows great promise of speed, but I don't think I shall campaign him much before he is five years old, as I don't have much faith in giving colts severe work till they get matured.

I have a mare seven this spring, standard and registered, sired by Prescott, dam by Pequawket by Gideon, dam of Black Hawk descent, that is a great road mare. I have bred her to Rochefort this spring. I also have a nice two year old filly by Greenfield by Electioneer, that I think will make something pretty nice.

L. W. NASH.

Used for Twelve Years with Wonderful Results.

Bennington, Vt., March 10, '94.

The Lawrence-Williams Co., Cleveland, Ohio:

I have used Caustic Balsam for twelve years. The results of my trials have been wonderful. Have cured 420 cases that others pronounced incurable. My object in writing to you is to get your prices for the Balsam. I use, as a rule, eight bottles a month.

H. E. MLLARY, V. D.

THE ORIGIN OF THE WORD TURNPIKE.

As pioneers and emigrants scattered settlements in all directions from the mother colonies on the Atlantic coast, roads were made and maintained by taxing all the citizens residing in the townships, counties, and states through which they passed. When a public road was a much-used thoroughfare, demanding extraordinary solidity of the roadbed, and the best condition of repair, a company was organized, capital was furnished, and the road was handed over by the people to the company, who lowered its grades, bridged its streams, stoned and drained its wheelway, and, when finished, charged each traveler on horse or wheels a toll for each mile traveled upon it. Thus the public road became a turnpike; so called because at the places where the toll was collected there were poles armed with spikes set across the road, which turned upon a post—a prickly notice to the traveler that he must pay or stop.

The first turnpike in America was chartered in 1792 by the Philadelphia and Lancaster Turnpike Company. It was commenced 1794, and soon completed.

There is no more important economic subject before the American people today, than the best method of making and maintaining the public roads.—Charles McIvane in March Lippincott's.

An exhibition of "Furniture of all Nations" is now being held in Boston at the warehouses of Paine's Furniture Co. The admission is free, and it is worth a visit to Boston to see and examine the curious Turkish divans, Dutch settles, Italian chests, Flemish dressers, Sir Walter Raleigh smoking chairs, Venetian cabinets, Moorish tea tables, French desks, and the hundreds of other imported pieces of furniture. They are all for sale.

Leaving shoes on over twenty-five or thirty days often causes corns and contractions which are serious and difficult to cure and cause distress and lameness and loss of service.

Real merit is characteristic of Hood's Sarsaparilla, and is manifested every day in the remarkable cures the medicine accomplishes.

With Directum, Arion and Kremlin as drawing cards at the New England Breeders' meeting next September, Mystic Park will be filled as it was never filled before.

Hon. Frank Jones of Portsmouth, N. H., has sent two mares to be bred to Nelson, one by Robert McGregor, dam by Red Wilkes, and another by a son of Volunteer.

No one who has a horse for sale, or has one that he wishes to exchange for another, or for a carriage, should fail to insert in our sale and change column, which will be found, hereafter on the last page of the paper. This is a handy place to get at, as it can be examined without opening the paper.

A telegram from San Francisco tells of a fine performance made in Australia by a horse named Portsea, which went three miles in 5.23½ with the big weight of 131 pounds up. Drake Carter, when a four year old, made the record at the distance that still holds good here, 5.24, at Sheepshead with 115 pounds up in 1884.

H. E. Haley of Birch Grove Farm, is driving two of his stallions, Lansing and

Game Bird, double. They make a rattling road team. The stock at this farm is looking fine, and Mr. Haley will have his usual string when the bell rings. As usual he drives his own horses.

A. D. Horn has quite a select lot of road horses and young speed, which he will market in Boston.

Some idea of the market that Boston offers for horses will be had when it is known that nearly 60 carloads were shipped there and sold last week, beside the great number of locally owned horses sold there.

Dr. McCurdy of Bangor has two very fine youngsters by Early Bird; also S. M. Edes of Guilford, says he has one that cannot be beaten, and Mr. Weymouth the well known barber, has one out of his May Prince mare that is pronounced a dandy.

Mr. John Horn, the well known buyer of horses for the New York market, shipped an even dozen of good ones from Waterville Monday morning. Mr. Horn says the York market is a little mite improved, and they do take hold of good ones quite brisk.

Mr. C. W. Morse, the very successful auctioneer of horses, is a very busy man nowadays. Besides conducting his own sales in Bangor every Saturday he sells for S. J. Murray every Friday, and of late has occupied the box for H. A. Harris & Co., the Boston salesmen. His appearance before a Boston audience was very gratifying, and he was highly complimented.

"Within five years," says Edward L. Wakeman, "I have tramped along 3,000 miles of British roads. Each time I step my foot upon their broad, firm, even surface, every drop of American blood in me tingles with shame at the thought of the mud pikes and bottomless road sloughs of our own splendid country, rich, great and strong enough to match the roads of Europe without a week's delay."

The Spirit of the Hub is responsible for the following slander on the Maine horse: "John Follansbee remarked the other day to a gentleman: 'I am sorry to say it, but you cannot go into the State of Maine and buy a carload of horses of the same high character as can be found in Kentucky, for the reason that they do not exist.' He admits that they have very tough, hardy horses which are great roadsters, but lack size and finish, a class for which there is no special demand at present." Wait until Maine has been in the business as long as Kentucky has and then see what you will see. Kentucky is fast losing her reputation as being the home of all the fast trotters, and Maine is making great strides towards a most enviable position in the light harness horse industry.

"We do not doubt," says The Horseman, "that there are at present a thousand different men in the country looking for prospective winners in all grades of harness racing. Here is a man looking for a two year old of great speed ability, there is one seeking to find an outclassed horse that can win in one of the minor circuits, and anon a third looking for something else. And so it goes all along the line. Each one of these purchasers states his price at the figures which the amount to be won will warrant. He will buy, of course, as cheaply as possible; but he will pay a sum in proportion to the prospective winnings. There is in this state of affairs an essence of future prosperity which entails at no far distant date the settling down of the market to a level where the man who has good horses to sell will always receive a good price for them."

G. N. Harlow, the South Boston horse

buyer, is expected to be at Wilton within a short time.

"There never was a better time to breed good colts," is the judgment of John Horn, the man who is constantly buying good ones for the New York market. Heed it.

Mr. C. L. Jenkins is to have the horse St. James 2.26½ in his string this season. St. James was sired by Dr. Franklin and promises to be a son for the old horse to look with pride upon.

R. S. Sampson, Esq., of Temple, is the new secretary of the Franklin County Horse Breeders' Association. Mr. S., is a long-time horseman, a breeder on a small scale and a man of practical views. He will be a worker for the association.

Our columns have been enlivened of late by numerous reports from the several breeders in our state. The subject is by no means exhausted and we hope to hear from them all. Breeders like to know what 'tother feller has got and what he is to do with it when the campaign opens.

We still hear a good deal about hard times, and times are hard, but can anyone recall the particular period when during the months of March and April more good horses have been sold in this state than this year? We think it will be a difficult feat to perform. Well, then, what are you all howling about? Hey?

Sheriff Miller's stallion got loose in his stable at Wilton and ran amuck with the horses stabled there in open stalls. One horse was quite severely bitten. Too much caution cannot be observed in the care of stallions, especially if there is more than one in the same stable, as when two entire horses meet it usually ends in the death of one or the other.

Dr. E. Bailey of Auburn has a bay filly foaled April 24th, that he has great hopes of. She was sired by the Serf, and her dam is an inbred Knox, having been sired by Lothair Jr. The doctor is tracing the pedigree of the dam and has reason to believe that the cross is a rich one.

Mr. Bisbee, the owner of McCusick, advertises elsewhere that he has reduced the service fee for that horse to \$15 for May and June, to warrant. This is to meet the emergencies of the times and is no measure of the value of the horse or his estimation among intelligent breeders.

Great interest is felt in the result of the several stakes that close this week, too late for this issue of the TURF. If they fill well it is an indication that the breeders of the country are still hopeful and willing to risk not only their money but the reputation of their stock. Large entries are not to be expected, as many who would gladly campaign their colts cannot this season, but a good showing is confidently looked for in all the classes.

Last week our office boy while in a state of ecstatic madness, superinduced by inhaling the ambient ether, which is found in its native state along the bank (we use the word bank advisedly) seized the quill editorial and wrote the item relative to "Westland, son of the great Nelson." The turf editor got no chance to look at that proof and it is doubtful if anyone around the office noticed the item, consequently the item crept in. The item was so obvious an error that it hardly requires correction, but we mention it as showing the care necessary to secure absolute accuracy. Next time an error like that occurs we shall get a gun for the culprit.

THE LOT TROTTER.

How often has the writer heard the above words used in a sneering manner as if the colt or horse which showed good action in the paddock was an animal unworthy of notice and one whose name should be a "by-word" and a reproach, though why it is certainly hard to conjecture.

No doubt there have been horses which showed superior action and the promise of extreme speed which, when attached to a vehicle, have failed to realize upon these promises.

There is occasionally a horse which can trot fast loose, which, by reason of inability to pull weight, may be classed as a failure. Such cases are, however, exceedingly rare exceptions to the general rule. There are also horses which show well in the harness when first taken from the stable, but after being driven a mile or two require the "persuader" in great abundance to get beyond a jog, and to which the term "door-yard horses" has been applied. Generally speaking, however, the colt which shows a good gait in the lot if properly shod and made fit by a judicious course of conditioning will be able to prove himself a trotter to harness.

The lovers of the noble animal had an opportunity at our Maine State Fairs a few years since to see quite a "lot trotter" in a brown colt which was following its dam. This colt came with the Sunnyside Farm contingent, and at Bangor on the occasion of the Eastern State Fair, when about four months followed his dam which was driven to a skeleton wagon a one-fourth mile in 57 seconds. At Lewiston in the same manner of going the same colt went a quarter in one minute, and made a break or two which rendered the performance not quite as good as when at Bangor. This colt got a three year old record below 2.40; as a four year old trotted to a record of 2.26, and has since reduced this to 2.18¾. Of course no one need be told that this is the horse Col. Osgood, by Wilkes, dam Kitty Almont, by Constellation; second dam by Lancaster, son of the race horse, Lexington. The writer saw this horse in his work on the old Waterville half-mile track one fine June morning, as a four year old, trot so fast that he decided in his own mind that but one horse had ever been at Sunnyside capable of trotting to a lower record, to which opinion he is still clinging. About the first of our write-ups of horses, incidentally mentioning two colts then weanlings or perhaps yearlings, it was not far from January 1st. Both carried the blood of the once despised pony trotter George Wilkes 2.22. One was from a daughter of Fearnought Jr. 2.26, and the other from a daughter of Thomas Jefferson, the so-called "Black Whirlwind." Both showed uncommonly well in the lot and were regarded as fast trotters to be. One of them, Mahlon, by Alcantara 2.23, obtained a mark of 2.22¼ as a four year old, and reduced it as a five year old to 2.18¼, and those who have witnessed his speed in races know that this is not near his capability or capacity. The other took a record of 2.45½ as a four year old, and is rated as a likely 2.30 horse, and sold for \$1500.

St. Croix 2.21¼ was a promising colt as a weanling, and showed speed when turned loose, yet this did not prevent him from obtaining a three year old record of 2.54, or from winning several races as a four year old, retiring with a mark of 2.28¼ on a half-mile ring, and the next season going out and in his first race getting a mark of 2.21¼ in a third heat, finishing in a jog after trotting the two previous heats in 2.22¼ and 2.24¼, and not in proper condition at that time to do himself justice. We confess to a liking for the natural trotter, the lot trotter, the colt which has speed by right of inheritance, and is able at any

and all times to display it. The quality of speed may be present but dormant for a time, and the animal may achieve distinction, but the "always" trotter is the one which suits us best, the same as the genuine diamond must always be more satisfactory and of greater value than the best imitation.

OUR DOVER, N. H. LETTER.

The kind of weather we have been enjoying for the last ten days must be very gratifying to those who are fitting horses for the coming season. At Granite State Park the track has been put in shape and is in better condition than ever. At the fair last fall excellent time was made, but the track is much faster this year.

There are to be 50 to 75 horses worked here this year. Quite a number have arrived. Mr. Fernald of Wolfboro has engaged ten stalls and is prepared to break and condition horses and colts. He comes well recommended and has some good ones in his charge. Frank Hanson, the well known stable keeper from Great Falls, is here with Cobee 2.27½, and three others.

Clark Spaulding has been here about a month with Geo. K. Saville's string from Boston. He has Geo. K., pacer, 2.21¾, and three other good ones.

Tom Marsh, from the Whitcomb farm, will also be here with a string of good ones by Woodbrino 2.25½. Johnny Marston, the popular young trainer from Pittsfield, N. H., was here last week with Crazy Jane 2.29¼, pacing. She has been bred to Davis' Beauvoir. Crazy Jane has a very fine two year old by Beauvoir that could show a 2.40 clip last fall.

E. E. Cogswell of Concord will handle Pierce and Sullivan's Capt. John 2.21¼ pacing. Mr. W. C. Hartford, Sec. of the Stafford Co. Agricultural Association, is anxiously awaiting the arrival of a foal from his favorite mare Ruby Mack 2.21¼ pacing. The foal will be by Capt. John 2.21¼. This breeding ought to result in something that can pace some, both sire and dam having the same record at the same gait.

There will be a June meeting held here June 5, 6, 7. There will be a 2.50, 2.28, 2.35, 2.25, 2.20, and 2.38 classes trotting. 2.20, 2.35 and 2.30 pacing. The purses will be \$300 in each class divided 30, 25, 15 and 10 per cent, with \$15 added for 5th horse in each race. Entries will close May 25th, all communications to be sent to W. C. Hartford Secretary.

No pains will be spared to have the track in good shape and everything will be done to add to the comfort of the visiting horsemen. The track here has two very desirable features. It does not sore the horses and they make good time. A very interesting meeting is expected.

Allusion has been made elsewhere to the fact that horsemen are "getting there" this year in great numbers. There are exceptions to all rules and Coxey appears to be the exception to this one. He started out to revolutionize our whole system of government and brings up in a miserable jail. Some one points to the fact that his refusal to share with the fare allotted to his followers as the cause of all his woe. Even a horseman ought to stay with the boys when there is a hot campaign on hand and not go banqueting at high priced hotels. If this led to Coxey's in glorious defeat in Washington the other day, our every day sort of horsemen ought to take warning from it and when the trotting season opens and they take the road stay right with the wipers and that see your horses get the care they deserve. Don't be a Coxey.

Experience teaches many things about horses that can be learned in no other way.

NOTES FROM MAPLE GROVE FARM.

A visit to Maple Grove Farm has forced to a conviction a former impression and that is that the proprietors of the farm know how to raise roadsters and trotters. With stallions by the great sires, Red Wilkes and Electioneer, out of producing dams that have already demonstrated their ability to sire speed as well as the qualities requisite for road horses, together with a fine band of brood mares, and a knowledge of how to breed them, makes a proper combination for the business. We find it all at Maple Grove Farm, and never had the farm a better lot of colts or a better prospect for future business than today.

The track was brushed for the first time May 1st, and it was a charming sight to see two 2 year olds, both by Messenger Wilkes, fly down the stretch like race horses. "Never did we have so good two year olds at this season of the year," said Mr. Briggs. One is a full brother to Mordica 2.26½, and Grenadier 2.28, and the other is out of Kosamond, by Presto; second dam (dam of Palm (3) 2.28¼.) These colts are both handsome and would be great sellers if they were not fast.

The next horses worked after the colts were Sadie L. 2.30 and Gene Briggs 2.26¼. This was the first time in sulky this season, and while neither were allowed to go fast except for a few steps at the finish, they made a handsome show coming down the stretch, both browns, looking strong and lusty, anxious to go and moving with rapid and elastic stride. They ought to be great horses in their class, for both showed much faster than their records last season.

Modjeska, a bay mare by Redwood, owned at Maple Grove Farm, has raised \$3100 worth of colts that have been sold from the farm at ages from one to three years. All but one of these colts were by Messenger Wilkes, and there are two more, a sucker and yearling, at the farm, both as promising as anything she has raised.

Mr. Briggs has just sold to a gentleman in Stoneham, Mass., the bay mare Narka 2.29, by Messenger Wilkes, for a long price. Narka is an ideal road mare, being 16 hands and weighing 1150 pounds. She can pull a phaeton a 25 clip and will road 12 miles an hour without urging. "It's no work to sell this kind," says Mr. Briggs, "for even in hard times there are two or three buyers for every such horse you can find."

Mr. Briggs has sent Narcus, the full brother to Narka 2.29, to Rigby to be trained for the stakes by E. Noyes, who so successfully trained the Colt Farm trotters.

HORSE SALES.

Mr. C. L. Jenkins has sold the standard bred mare Inez to Mr. George Nevins. She was sired by Maine Prince, he by Prescott, and his first dam was by Pickpocket. She is but four years old, and a most promising one.

Mr. A. F. Merrill of Danvers was in town last week and made several calls upon horsemen here and hereabouts. Monday night he shipped five good ones. Probably his last purchase was the Kentucky bred stallion Archie L., which he purchased of Charles Jenkins. This horse was sired by Madrid, he by Geo. Wilkes. His first dam was by Almont. He was bred by Mr. Shaw, the great Kentucky breeder. Then there was a fine bred three year old filly by Westland, which he bought of Mr. Brooks of West Paris, and a likely young horse of Mr. Childs of Canton Point.

T. Thayer of South Paris shipped five very handsome horses from C. L. Jenkins' stable to Boston last week.

GOOD BRED FILLIES.

Mr. William La Croix of Lynn, the owner of Blue Wilkes, who stands in this state this season, is the owner of some very choice stock. He has two fillies especially worthy of note. One of them is Mosaic, standard and registered. She is a gray roan, 15¾ hands high, weight about 1000 pounds, foaled April 12, 1891, bred at Fashion Stud Farm, Kentucky, by Henry N. Smith, owner of Goldsmith Maid, Lady Thorn, Gen. Knox, Jay Gould and others. Her sire was Wickliffe 2520, he by George Wilkes 519. Her first dam was Muriel, a brood mare that can be traced on the dam's side to the 8th dam, and she carries the blood of Glencoe, Hidgeford, Lance, Imp. Richard, Sir Archie, Bertrand, Oscar, Pantaloon, etc.

This filly unites the blood lines of the Wilkes-Hambletonian-Mambrino Patchen families, backed by the Glencoe, Lance, Sir Archie and Bertrand thoroughbred strains on her dam's side. She is large, rangy, well proportioned, sound, smooth, and with a pure trotting action. Broken single the past winter, and can road a twelve mile an hour gait, and promises to trot fast. She was stunted April 5, 1894, to Plaza 2.22¾, by Tennessee Dictator, by Dictator 113, out of the great brood mare Claire 2.31, by Bayard 53, by Pilot, Jr., sire of the dam of Maud S. 2.08¼.

The second filly is Undula, also standard and registered. She is bay with snip, 14½ hands high, weighs 875 pounds, foaled April 7, 1891. Bred at Fashion Stud Farm, Kentucky, by Henry N. Smith, owner of Goldsmith Maid, Lady Thorn, General Knox, Jay Gould and others. She was sired by Wickliffe, and her dam was Undine. This filly unites the blood lines of the Wilkes-Hambletonian-Mambrino Patchen families, tracing to Hambletonian 10 on side of sire and dam, with second and third dams producers of four under 2.30. She is very handsome, has a nice disposition, fearless, and strongly built. Broken single the past winter; a natural pacer, can show a fast gait, and promises to be very speedy.

HORSE BREEDER: We have been trying for years to impress upon the minds of Northern breeders that actual merit was of greater value than giltedge pedigrees, where the animal which represented them were commonplace individuals. Speed combined with size, quality, soundness and a kind disposition will continue to bring good prices, whether the animal possessing it is fashionably bred or not. It is what a mature-developed animal can do on the road or track that determines his value. The horse which can lead all competitors in a brush down the road and keep in advance of the gang to the finish is the horse road-drivers are looking for, and when they find one of that sort they care but little to what family his ancestors belong.

The assertion is oftentimes made these days that a trotter is of very little value that cannot beat 2.30 three times. This statement, were we to base our calculations upon the time made in the big circuits, would seem to be correct, but when an examination is made of the summaries of races at the many minor meetings throughout the country it appears that a horse is not required to trot in 2.20 or better to be able to win a share of the money. While 2.20 speed has but little value in "the big ring," it is still able to earn good money at the smaller meetings, that to-day give purses equal to many of the best at the larger meetings of years ago. The statement that a horse well placed is well raced is true. A 2.20 horse has out little business among horses that can go miles in 2.15 or better, but he can find a place where he can earn his keeping if his manager is of the right sort.

THEIR PARENTS WERE TROTTERS.

Recent publication of the official trotting statistics for 1893 makes possible the obtaining of definite information regarding the performers of all ages, and this is especially valuable in the case of the two-year-olds, of whom a greater number beat 2.30 last season than ever before.

When one makes a list of all the trotters of that age that became standard by performance during last season it is amazing to note what an overwhelming proportion of them are by sires with trotting records better than 2.30, and in addition to this the percentage that are from developed dams is also large. Here is the list, which speaks eloquently for itself:

Name.	Record.	Sire.	Record.
Nellie A.	2.19	Wilkes Boy	2.24½
Falfa	2.20	Allerton	2.09½
Director's Flower	2.20	Director	2.17
Cut Glass	2.20½	Onward	2.25½
Axinite	2.20½	Axtell	2.12
Queen Allah	2.21½	Almonarch	2.24½
Ortine	2.22	Elyra	2.25½
Ella Woodline	2.23½	Woodline	2.19
Cervus	2.23½	Sphinx	2.20
Palatine	2.23½	Palo Alto	2.08½
Altoner	2.25	Sphinx	2.20½
Coincident	2.25	Calabar	—
Precieuse	2.25	Stamboula	—
Billy Parks	2.26½	Dauntless	—
Baron D. Hon	2.27¾	Baron Wilkes	2.18

Twelve out of fifteen are by stallions with records better than 2.30, the mark of the slowest being 2.25¼, while five of them have beaten 2.20. The first three two-year-old trotters of 1893 in point of merit—Nellie A., Director's Flower and Falfa—are out of developed mares, their dams having records of 2.22¼, 2.23 and 2.22½ respectively. It is not possible to present a stronger argument than this in favor of developed parents. It is not until the 2.25 mark is reached among the two-year-olds of 1893 that beat 2.30 that the undeveloped sires have the slightest representation, so that the speediest ones are to be found where the records are most numerous among the sires and dams.—*Breeders' Gazette.*

The study of the anatomy of the horse is something that every breeder in the land should be interested in, not for the purpose of becoming a veterinary surgeon or "hos doctor," but for the purpose of more fully understanding the mechanism of one of the most intricate machines with which anyone has to work, and one which farmers have charge of every day in the year.

The Waterville French Racing Association recently re-elected its last year's board of officers and arranged for a meeting at Fairfield Trotting Park, June 6. There will be five classes besides a bicycle race.

Another horseman seeks political honors, and as they are all "getting there" this year it looks at least favorable for Mr. C. A. Marston, Esq., of Skowhegan, the owner of Fred M., who is a candidate for Senatorial honors in Somerset.

J. C. Lynch of Phillips, we understand, will have charge of the colts at Pine Orchard Farm, North Freeman. Among these are the get of Daniel Boone, Phillipe, by Alecyone, Likewise (4) 2.23¼ and Alclayone, son of Alecyone.

Detective Seavey of Auburn lost a valuable brood mare a full sister to Star-gazer early this week. The mare was 16 years old. One of her colts Mr. Seavey sold for \$1,500.

Mr. Samuel Pompilley returned from New York last night where he went to dispose of several fine matched pairs. He found a ready market for he had good goods.

Advertise for Summer Boarders in the BOSTON TRANSCRIPT. Send to that paper for rates and all information regarding the matter.

Many a horse has died from colic which resulted from the kick of a brutal groom.

RAMBLING NOTES

Gathered From Horsemen in Mechanic Falls, Buckfield, Sumner and Oxford.

In this letter I shall give just a brief description of some of the trotting bred stock owned by subscribers in the towns named above. My first visit was made at the stable of I. D. Waterman of Mechanic Falls. Here I was shown a yearling stallion by Bayard Wilkes 2.13 $\frac{3}{4}$, dam by Redwood, sire of Grover Cleveland 2.18 $\frac{3}{4}$, and six others in the 2.30 list. This colt is good size, color brown, and a pure gaited trotter. Mr. Waterman owns the dam of this colt. She is a large mare with good road qualities and a good breeder. Her dam was by Vermont Black Hawk.

Next shown was a handsome and stylish five year old mare sired by a son of Prescott, dam the dam of Lady Redwood 2.27. She is a mare of great style and finish, is good gaited and bids fair to be fast. She is a dark seal brown, stands up well, has good feet and limbs, and will be heard from later on. R. P. Rounds of Woodfords has a two year old colt out of the same dam, sired by Young Fearnought, that is said to be a fine one.

C. H. Milliken, superintendent of the paper mills, has a number of good ones, among the lot being a four year old mare by Volute, son of Volunteer, dam a Messenger and Brandy. She is a bay mare, of good size and style, and a very fast roader. Next is a seven year old mare out of the same dam and sired by a son of Don Pedro. This mare can show a 2.50 clip without handling. Next is a four year old gelding by Robinson D., 2.17 $\frac{3}{4}$, light chestnut, good style, and shows lots of speed.

Harry L. Jewett, trainer and driver for Mr. Milliken, owns a handsome four year old stallion, bred and raised by Fred Pierce, that bids fair for a good one. He was sired by Albrino, sire of Iona S. 2.17 $\frac{1}{4}$, Fauntleroy, trial 2.18 $\frac{1}{4}$, Albrina 2.27, etc.; dam by Wanderer, a son of Gen. Knox. This colt stands nearly 16 hands, color a rich dark bay, and a good actor.

W. H. Lunt has a very promising yearling filly by The Seer 2.19 $\frac{1}{2}$, dam a Knox mare, and grandam the dam of Carrie T. 2.29 $\frac{1}{2}$. This filly is bay, black points, good gaited, and a beauty.

At Buckfield I had a nice ride behind the matched pair of blacks owned by Mr. Fred Bennett. One is a five year old mare, the other a gelding coming four. Both were sired by Black Rolfe, a son of Young Rolfe 2.21 $\frac{1}{4}$, the sire of the Northern King, Nelson; dam by Record's Champion Black Hawk; second dam by Cobb's Brandywine. They stand about 15-3 hands, color black, good feet and limbs, and well finished in every part. After being driven double a short time they will make a team that will be hard to beat. This pair is for sale and are described in our For Sale and Exchange column. Mr. Bennett has quite a number of colts, yearlings, and two year olds that were sired by Black Rolfe, Elsmere and Record's Nelson, and some of them are very promising.

I next made a visit at the stable of Dr. J. C. Caldwell and was shown his new purchase, the stallion Warick 16718, (see advertisement.) This is a bay colt, black points, no white, foaled April, 1891, bred by Byron G. Kimball, Island Stock Farm, Bradford, Mass. Warick was sired by Warden 5318, record 2.29 $\frac{1}{4}$, and brother to Viking 2.19 $\frac{1}{4}$, and Waterloo 2.19 $\frac{1}{4}$, by Belmont, and out of the great brood mare, Waterwitch, dam of six in the 2.30 list. The dam of Warick is Oak Maid, a mare that can show a 2.30 clip, and half sister to Kantaka 2.27 $\frac{1}{2}$, by Almont Eclipse, son of Almont; second dam Deceitful 2.34 $\frac{1}{2}$, by Garibaldi, by the Drew Horse. Warick will make a

large, handsome horse with substance and finish; stands 16 hands, and feet and limbs the best. His gait is rapid, pure, and easy, and shows fast. His disposition is perfect. He will stand at the low fee of \$15 to warrant, and with his breeding and individual merit deserves a liberal patronage. The doctor has a mare by Wedgewood 2.19, out of a mare by Redpath, son of Gen. Sherman, that is a fine roadster, and has raised a number of good colts. One is a yearling by Bay Wilkes, son of Bourbon Wilkes, that is a good one.

R. I. Jordan has the three year old gelding, Victor E. 2.57 as a two year old. He was sired by Fauntleroy, trial 2.18 $\frac{1}{4}$, out of a mare by Goldbird. He started in three races last season as a two year old, and won them all. He is looking fine this spring and will be started in a number of three year old stakes.

Washington Heald at North Buckfield has two good ones. One is a six year old gelding, stands 16 hands, weighs 950 pounds, color bay, and can show a 2.40 clip; sired by Robert Bonner Jr., dam by Matchless, sire of the dam of Cephas 2.18 $\frac{3}{4}$, Stanley 2.17, etc. The other is a four year old mare by Robinson D. 2.17 $\frac{3}{4}$, dam by the dam of Rysdyk, and the dam of Nellie D. 2.27. This is a handsome brown mare standing 15-2 hands, of good conformation all over, and has lots of speed; will be put to training the coming season.

Guy Turner also has a good six year old gelding, sired by a son of Black Pilot, dam by Inca, son of Constellation.

W. C. Bisbee has a four year old gelding, color brown, black points, stands 16 hands, and a good gaited and promising colt, sired by Record's Black Hawk, out of a Hambletonian mare.

My next visit was made at the stable of George H. Jones, the druggist, at Oxford. Mr. Jones is a lover of a good horse and most always has one or more on hand. At present he has two, the oldest of which is a four year old mare, sired by Col. West, sire of Westland 2.29 $\frac{3}{4}$, dam by Hind's Hambletonian. This mare stands 15-1 strong, and weighs about 900 pounds; color seal brown. She is all sound and kind, a good driver and safe for a lady to drive. She is for sale, (see advertisement,) and any one in need of a good family mare at a reasonable price will do well to correspond with him. Mr. Jones also has a two year old filly, sired by Paris Boy, son of Bourbon Wilkes, dam by a son of Daniel Lambert, that promises to be a good one.

C. T. Wardwell also has a number of well bred colts that are for sale, (see advertisement.) One is a four year old mare by Col. West, out of a mare by the Hind's Horse; second dam a Brandy and Knox. She is a bay mare, good size, all sound and right. The next is a two year old filly by Black Rolfe, son of Young Rolfe 2.21 $\frac{1}{4}$, out of the same mare. The next is a three year old gelding, color bay, sired by Col. West, out of a Morgan and Eaton mare. Next comes an inbred Knox mare, five years old, sired by McKenney's Knox, dam by Phil Sheridan, a son of Gen. Knox. This mare stands 15 hands, weighs 965 pounds, color black, and she is a very fine mare for some one in need of a family horse, as she is a good roader, will work single or double, and is afraid of nothing.

W. E. Bumpus has a very promising four year old gelding, color bay, stands 16 hands. He is up-headed, stylish and can show as good a gait as any of them, and when handled for speed would no doubt be fast. He was sired by Greenwood, son of Victor Patchen, and his dam was by a son of old Hambletonian.

Dr. Hersey also has a very promising three year old gelding by Rockefeller 2.29 $\frac{1}{4}$, out of a very fast road mare. This colt stands 15-1 hands, weighs 940 pounds, color brown, and is very stylish and good gaited.

Frank L. Manser has the stallion Inca,

a son of Constellation, and he is looking well this spring. This horse is getting a good class of colts, as they have size, style, and make first-class gentleman's drivers. Mr. Manser has quite a number of colts and brood mares, and all are looking well.

J. E. Parrott has a very promising three year old gelding by Col. West, stands 15-3 hands, color chestnut, good size and good gaited, and D. M. Peterson has a nice family horse in his eight year old gelding. He stands 16 hands, weighs 1187 pounds, color seal brown. He was sired by the Hind's Horse, a grandson of Gideon, and out of a mare by Black Hawk.

DIRIGO.

BURNHAM HORSE NOTES.

Mr. W. L. Shaw, our veteran horse breeder, has a four year old mare by Harbinger, dam by Monte Christo, which is a very promising piece of horse flesh, standing 16 hands high, and will weigh 1100 pounds. Mr. Shaw values this mare very highly, as she is speedy and of a very fine style, color chestnut. He will use her for a brood mare. He also has a very fine finished mare, sired by Harbinger, dam by Gray Dan. This fine mare stands 15-2 hands, and will weigh about 1000 pounds; color bay with black points. She is of very fine style and finish, and very speedy. He has a bay filly, one year old, from this high bred mare, sired by Early Bird, which is certainly a very promising colt. We saw this colt turned loose and she showed a wonderful turn of speed. Mr. Shaw has her spotted for a fast one, which, by her breeding, she has a right to be.

Mr. Shaw sold the most of his horse stock last season, and at present has not a very full stable, but more will be added to his string from time to time, as opportunity offers. He has bred and sold a great many good good ones, including Silver King, George H., Olga, and several others which have made low records.

ENDORSED BY THE STATE.

In the course of a business letter addressed to this office Hon. B. Walker McKen, the able secretary of the Board of Agriculture, has this to say of the TURF:

STATE OF MAINE AGRICULTURAL DEP'T }
Augusta, April 22, 1894. }

MY DEAR SIR:—The TURF, FARM AND HOME under its present management is a valuable paper for our state, and is carefully read by me every week. It is as welcome as any paper which comes to my desk. I wish you success,

Yours very truly,
B. WALKER MCKEEN.

About three weeks ago C. A. Partridge, V. S., who has been practicing in Marlboro for over a year, took with him to Farmington, the bay stallion, Jaybel, by Jay bird; dam, Buttercup, 2.28, by Belmont. Now Farmington is a town which abounds in pretty good horses, but Jaybel caused the horsemen of that locality to open their eyes last week. He came across the flat there faster than any horse ever did, as one of the shrewd observers remarked. The Jay Birds will take well in Maine.—*Spirit Of The Hub.*

{ CHAS. SMART TRAINING STABLE,
SOUTH MERIDEN, Dec. 2, 1891.

Dear Sir:—One of my horses in training had a splint and sore tendon, which made him lame. I blistered him, but he was no better, so I decided to try your "Absorbine," which I did with the best of results. The lameness began to improve at once, and was completely cured in ten days. He has been going square ever since. Send me one-half dozen bottles at once. I shall recommend it to all horse trainers.

Yours truly,
CHAS. SMART.

The suggestion has been made that it will be necessary for the Year Book to discontinue taking cognizance of performances slower than 2.25 on account of their becoming so plentiful as to make the tables too bulky. As long, however, as a 2.30 record is a qualification for standard registration it will be necessary to keep 2.30 records in the official tables; then, too, the new form of the Year Book as adopted for the last one issued, which makes it an appendix merely to the former volumes, does away with the danger of making it too bulky. The 2.30 list of trotters is certainly of much interest to horsemen generally, and there would be many who would sincerely regret seeing the tables cut down so as to contain only horses that trot in 2.25 or better.

The decision of C. W. Williams to construct a track of the regulation shape at Galesburg, Ill., in preference to one of the kite-shape, is undoubtedly due to the fact that the advent of the pneumatic-tired sulky wheels has made it possible for a trotter to trot as fast on a regulation as on a kite-shaped track. The old difficulty of getting around the turns of a regulation track at speed was ended with the introduction of the pneumatic tire as a factor in harness-racing, and few if any, more kite tracks will be constructed.

(Maine Farmer.)

The TURF, FARM AND HOME as a trotting horse paper is rapidly swinging to the front, and must become a recognized authority among this special class. We would tender congratulations to Messrs. Mayo and Hatch for the great improvements manifest, regretting only that they do not join hands with the Farmer in pushing to the front the just claims of the larger classes and the supreme importance of the road horse industry, one resting upon trotting blood, but covering a wider range of essential qualities.

Don't Delay.

It is your duty to yourself to get rid of the foul accumulation in your blood this spring. Hood's Sarsaparilla is just the medicine you need to purify, vitalize and enrich your blood. That tired feeling which affects nearly every one in the spring is driven off by Hood's Sarsaparilla, the great spring medicine and blood purifier.

YOU CAN'T MOST ALWAYS TELL.

Just when you think you've struck it rich,
And strut around to show it,
Quite often it turns out but wind,
You're flat before you know it.

Just when you think you've lots of friends,
Will stick through thick and thin,
You'll find that friendship's gauged somewhat
By your amount of tin.

Just when you think you surely are
The greatest man about,
The first you know your neighbors say
You're the biggest fool that's out.

Just when you think you're horse will win,
Is the very time, you know,
Some trifling thing just knocks him out—
Behind the flag you go.

It isn't safe to bet your pile
On anything, you'll find
The horse that's favorite in the pools
Quite often comes behind.

There's nothing sure on earth, my friend.
Excepting taxes and death,
It's better to just mind your biz,
Keep cool, and hold your breath.
—Em. Pierce in the Horse World.

WE GUARANTEE

That one tablespoonful of

GOMBALD'S CAUSTIC BALSAM

will produce more actual results than a whole bottle of any liniment or spavin cure mixture ever made. It is therefore the cheapest (as well as safest and best) external applicant known for man or beast.

THE LAWRENCE WILLIAMS CO., CLEVELAND, OHIO.

A MODEL NEW HAMPSHIRE STOCK FARM.

LANCASTER, N. H., April 20, 1894.

One mile from this beautiful village of Lancaster, on the line of the Maine Central and Concord & Montreal railroads, about one-fourth of a mile from the transfer station, where the two roads cross, (the Maine Central continuing up the Connecticut river valley, and the Concord & Montreal running nine miles further northeasterly to Groveton Junction, where it makes connection with the Grand Trunk, and ends,) is situated the Lancaster Driving Park, one of the best half-mile tracks in New England. This park is adjoining to and connected with the stock farm of Stevens & Eaton, their horse barns being inside of the grounds. They have here now about fifty horses, brood mares and colts. They are a likely lot, well bred, and some of them will be developed the present season. Nearly all of their colts have been harnessed and driven some. They are being handled by C. E. Moulton, formerly with Col. Russell, Milton, Mass.

The premier stallion is Protector, full brother to Endymion 2.23 1/4, by Dictator. He is a dark bay horse, with black points, stands 15 3/4 hands, and weighs 1075 pounds; very heavily muscled; was bred by Augustus Eastin of Lexington, Ky.; foaled June, 1884; first dam Anni Eastin, dam of Endymion 2.23 1/4, Dolly Davis 2.29, Golden Rod 2.19 1/4, and several others close to 2.30, including Estelle Eastin, dam of Minot 2.26 1/4, and Hidalgo, sire of Carl 2.23 1/4. Annie Eastin was by Morgan Rattler, her dam by Mambrino Chief. In Protector we have the Hambletonian, Mambrino, Morgan, and American Star blood combined. It is unnecessary to add that he is a good individual, although his speed has never been developed, and he is siring a fine lot of colts.

Easter Boy, by Wilkes Boy, by George Wilkes, dam Belle Champion, (sister to Elmer 2.22 1/4,) by Gooding's Champion, (sire of Naiad Queen 2.20 1/4, Castle Boy 2.21, Elmer 2.22 1/4, and several others that have trotted in 2.30 or better;) second dam Belle, (dam of Elmer 2.22 1/4,) by Rysdyk's Hambletonian; is a solid black, stands nearly 16 hands, has good trotting action, and will trot fast when developed. He is five years old, and after a short season in the stud will probably be handled for speed.

There are several young stallions, among them one, a chestnut, three years old, by Bonnie McGregor 2.13 1/2, dam by Daniel Lambert, a very stylish colt, of good size and substance. A seal brown colt two years old, by Clay 2.25, by Electioneer, dam Hecuba, public trial 2.34 at two years,) by Princeps, sire of Trinket 2.14, etc., struck us as about the best sample of a colt we have seen anywhere. He is bred right, put up for business, gaited right now at the trot, although when first driven he was a pure gaited pacer, and promised to be as fast as a ghost, but one morning when hitched up he had changed his mind and has since shown no disposition to return to the error of his ways. Barring accidents he will make a race horse.

A fine bay filly, three years old, that shows speed and will be handled some this season, is by Protector, out of a mare by Ben Franklin; second dam is the dam of Jumbo Wilkes. Another three year old filly and one it will do to watch, is coal black, stands 15 1/2 hands at least, sire Baron Wilkes, dam Hecuba, by Princeps. She has been driven a little the past winter, never handled for speed, but the day we were at the track she drew a road cart one-eighth of a mile in 19 seconds, a 2.32 shot, and she didn't have a shoe, or carry a weight. She ought to be about right for fast company when educated. A big bay three year old filly, by Jerome Turner, out of Roxey Wilkes, by Red Wilkes, is going to make

one anybody would like, and promises to be speedy. Another out of Roxey, by Red Wilkes, is a bay two year old colt, by Wilkes Boy. He has plenty of substance, stands 15-1 1/2 hands, is good gaited, and will go fast when matured.

A three year old gelding by Protector, out of a mare by Glenarm, worked a quarter today in 45 seconds. He started here last fall in the green county race, and won it. He bids fair to be a race horse. He stands not less than 15 3/4 hands, will weigh 1000 pounds, and would make a model gentleman's driver. A two year old gelding, out of this same Glenarm mare, by Easter Boy, by Wilkes Boy, is a rangey fellow and a good actor.

Never Tell, by Stranger, son of Gen. Washington, and Goldsmith Maid, is a model road horse, and promises to be fast; is a very game, resolute horse, and a good sample of the Hambletonian-Morgan combination. Saw him work a one-fourth mile in 45 seconds. He is five years old.

There are plenty of other good ones here, several by Viking 2.19 1/4, some by Ben Franklin, and a good many by Protector, the oldest of which are three. It would take too much space to specify each, enough to say they are good ones, and will compare favorably with the stock on almost any farm.

There were in the yards three young foals by Protector, one out of a mare by Kentucky Prince, one out of Belle Champion, by Gooding's Champion, and one out of a mare by Daniel Lambert; also a young foal by Easter Boy, by Wilkes Boy, out of Highland Queen, by Highland Grey. These were straight, strong colts, and good movers.

There are quite a number of highly bred brood mares here that I have not space to mention. Most of the stock is young and promising. The intention being to breed roadsters as well as speed, they have not paid much attention to developing speed, but this season will work some of the most promising ones.

P. T. W.

SOME OF EXETER'S GOOD HORSES.

A. V. Leavitt has Glenwood, by Lothair Jr., 2.30, that is a good one; dam by Judge Advocate, sire of Thornburg 2.21 1/4.

Ed. Leavitt has a two year old by Amber, he by Prescott, he by Harold, dam by Black Harry. This is a good colt, black, and can show a very fast clip at halter.

Glenwood was made a gelding the past week and he ought to be able to go into the list this year. He started in three races last year and made a good showing. Dan Lothair, by Lothair Jr., has also been added to the list of geldings.

Louis Fish, V. S., of Hartland, changed 24 colts here the past week. He has the best of success with all the work he does.

F. W. Hill has bought the past week the stallion Ongater 8870, by Onward 1411; first dam by Bayard Jr., 4479; second dam by Mike Downing, by son of Mambrino Chief. He stands 16 hands high, is a rich bay and fine looker; weighs 1150 pounds; one white ankle. He is a perfect horse in every way; seven years old. Mr. Hill also bought one of H. G. Parshley the past week, Al Knox, by Albrino, dam by Harry Knox. He is brown and a beauty. He can come pretty near making some of the good ones hustle this season.

Any man, not a member of the New England Breeder's Association, who wishes to sell horses at their sale this month, can do so by joining the Association. This will be a good chance for joining a splendid organization.

Ask your family physician if many cases of sickness are not traceable to unsanitary wall coverings and room hangings, also ask him regarding Gypsine.

IT IS SIMPLY HUMAN NATURE.

An exchange well says: The shrewdest buyers of horses have long practically recognized the fact that, all other things being equal, it is always most profitable to buy from the farm that not only develops the produce of its stallions and mares but that by advertising and otherwise keeps its stock before the public. The breeder who, swelled by the success of a fortunate and great stallion, reaches the conclusion that he does not have to keep the horse's merits before the public in every legitimate way, not only fails to make the most of his own opportunities but forgets the reasonable obligation due from him to his patrons. When he sells for a high figure a colt by his great sire, he should not forget that the buyer is paying a fancy price for the prestige of the great name of the colt's sire, that out of that prestige his return must in large degree come, and that justice to the buyer makes it incumbent upon the seller to leave nothing undone to assist his patron by, in every possible way, increasing the fame of the sire and the value of his blood. The other day a gentleman, who a year or so since bought at a "swell" price a son of a famous trotting sire, remarked 'complainingly that that horse's name was seldom mentioned in any turf papers, that the greatness of his family was rarely referred to, that for that reason the owners of his progeny were placed at a disadvantage in competition with the sons of great horses owned by enterprising breeders, and he held that the breeder in question was blameable therefor. The fame of every great horse in this country is due in a very great degree to the service performed by the turf press in heralding to all quarters of the country the success of his progeny, and it is not only human nature, but sound business policy and absolute justice that the turf papers best serve those who evidence some appreciation of the value of their assistance. The turf papers, like all other papers, aim to give all the important news, but they do not devote their surplus space to keeping fresh in the minds of their readers the fame of horses whose owners do not care sufficiently for their reputation or the success of their patrons to in any way reciprocate the service. This is a large country, the days go fast, and each day is so big with events that even important things of yesterday if forgotten by the press are soon forgotten by the public. The man contemplating founding or adding to a breeding stud will do well to remember the fact that a very important element in attaining success is to buy horses from farms that not only, by developing the progeny of its stallions and mares, but by reasonable advertising, keep their merits constantly before the public and thus enhance their fame and the value of all stock descended from them.

WELD HORSE NOTES.

Mr. Frank E. Cole of Weld has a three year old filly "Daisy Pooler" by All-So 2.20 1/4 by Blackwood Jr. 2.22 1/4 dam by Tom Patchen Jr., 2.34 1/2. She is seal brown in color, black points, with white feet behind, stands 15-2 1/2, weighs 900 pounds. This colt is well made and active being nicely broken. When first hitched she ambles but soon moves into a good trotting gait and is pronounced by good judges, among them Mr. Mark Foster of Canton as a good one. With her breeding and action she cannot seemingly fail to be fast.

Don't fail to read Mr. S. J. Murray's advertisement announcing his sale of 30 valuable horses at his stable, Federal St., Portland. Last week was the most successful sale ever held, all horses bringing good prices.

A VALUABLE WORK.

We have repeatedly called the attention of our readers to the value of the McFadden Pedigree book but do not feel as though we have done our full duty even now. It is a book that every breeder in the land who takes pride in keeping a tidy record of his stock is sure to appreciate when he once sees it. It is equally valuable for all kinds of stock. TURF PUBLISHING CO., Auburn, are the publishers.

SKOWHEGAN NOTES.

J. O. Haines shipped ten horses to Portland last week.

A. K. P. Perkins has bought Hollis Bros.' horse, for which he paid \$400.

H. M. Jones sold a fast mare this week to Portland parties for \$350.

The American Trotting Register is the property of the breeders of the country, and no partiality is shown in the direction of it. It is run by breeders, and it should have the widest support. Without the Register confusion would prevail, and recuperation from depressed values would be slow. No work is absolutely free from error, and it is gratifying to know that conscientious efforts have been made to keep error out of the Register publications. The mistakes that have crept in were not intentional, nor were they the work of prejudice or design, and liberal minded people do not dwell upon them in captious spirit. They simply call attention to them in order to secure their prompt correction. There is general confidence in the present management of the Register.

Robert Bonner never made a bet but once in his life. He thus relates the incident: "I came to New York, a compositor, in 1845, and never met any man but one who could set type as fast as I could. His name was John Hand, and he was, until his death about a year ago, one of the proprietors of the Galveston Daily News. I was badgered into betting \$10 that I could beat him in setting up the President's message. In twenty hours and twenty-eight minutes I set up 25,500 ems and won the money, which I declined to accept, as I did not believe in betting."

Few persons we imagine have any idea that the word "colophon" once universally now occasionally used by printers as reference to "the end" of a book, has any connection with horsemanship, but such is the fact. Colophon was that one of the twelve Ionian confederate cities which furnished cavalry to the league, and whose horsemen were so good and valiant that they always finished off a battle victoriously, so that the saying "to come to colophon," meant to put the last touch to a business. Hence its subsequent application in the art.

IT CURES Where All others Fail.

No Wonder They Praise It,

Worked Like A Charm.

We recently had a valuable horse taken with colic and every effort to save him with all the medicines we could get seemed useless. After a very severe sickness of 5 hours, we gave him a 2 oz. bottle of Brown's Instant Relief and in 20 minutes he was easy and had no further trouble. J. B. BESSE & SONS, Albion, Me.

TWO GRAND SHIRE HORSES.

In Their Way They Are Handsome as a Thoroughbred.

Our illustrations show this week two specimens of the heaviest draft horses known. The Shire horses sometimes weigh over a ton.

Both the horses whose portraits are here shown have been imported from England. The first one was brought over in 1891 by a horse importing firm in Minnesota. Shires are used in Great Britain for drawing the huge trucks needed on the London and Liverpool docks. They seem to be gaining favor in America slowly, but surely. They are too large for all but the heaviest haul-

FIG. I—SHIRE STALLION.

ing, but there they are invaluable. It is predicted that all the horses which it will pay to raise in America will soon divide themselves into two classes—those for riding and driving and those for heavy hauling. In the west the huge draft horse is more used than in the east, and in the west and middle belt it pays to breed him. As showing which way the tide travels in the east it may be mentioned that at the last New York horse show there were no draft horses at all on exhibition. Still it pays well to raise them where they are absolutely first class, with clean, strong bones as well as great bulk.

The second picture represents the champion Shire stallion at the Columbian fair. He is now 12 years old, but

FIG. II—SHIRE STALLION.

the fact that he won the prize over all competitors shows his quality. The colts from this stallion are fully up to the mark of those reared abroad. Certainly there is no reason why they should not be. The horse in Fig. 2 is considered by some good judges the nearest the perfect type of the Shire breed in America.

Shelter For Hogs.

The hog is injured more by wet weather than by cold weather. One of the most important items in arranging shelter for hogs is to have it dry. The particular plan or style is not so important as dryness and reasonable warmth. More than anything else the hog shelter should protect from wind and water. The roof should be made tight. By filling in three or four inches inside and providing good drainage outside dry sleeping quarters may readily be secured.

Hogs bed closely together. If kept in a good thrifty condition, the bodily heat is retained more easily than with any other class of stock. If they are compelled to sleep in a wet bed, they will often get steaming warm. Then, if they get out of their beds to eat and are exposed to a cold wind, congestion results if not actual disease. A good per cent of this can be avoided—first by providing dry sleeping quarters and next hav-

ing their eating place well protected from the wind. Dry earth makes the best sleeping floor, with sufficient bedding to make comfortable. The bedding should be changed sufficiently often to keep clean, as a filthy bed breeds vermin and often disease.

It saves feed to have tight feeding floors for grain. These should be well roofed and sided up at least sufficiently to protect from cold winds. A little care in keeping clean will aid materially in maintaining health.

It is not by any means necessary to confine the hogs in close quarters. If well fed and comfortably sheltered and allowed the run of a good pasture, they will make a better growth than if closely confined. The brood sows with young pigs should have a place by themselves, while the growing pigs, or what are usually termed stock hogs, should have a place to themselves. Where any considerable number of hogs are allowed to sleep together, they will pile up too closely for breath. The surest way to prevent this is to divide them up into lots. In this way the fattening hogs can be pushed, the growing pigs can be kept thrifty, and the sows with young pigs can be well fed, each without interfering with the other.—Prairie Farmer.

HORSES FOR SALE OR SHOW.

How to Feed and Prepare Them to Stand the Test.

A friend came into the writer's office a few days ago and said: "I have just had sent me a gelding that is badly run down, all 'bunged up,' in fact, and the sender wants me to fix him up. He has taken the horse on a debt and his former owner says he has plenty of speed. The horse looks as though he had not had a mouthful of grain all winter and very little hay. He is as thin as any horse I ever saw, is badly constipated, and from the starving process to which he has been subjected his intestines and stomach are in very bad shape. His legs seem to be all right, but what I want to know is what I am to do with him so as to get him into shape to sell or drive at the earliest possible date."

The first thing to be done with a horse in this state is to give him copious injections of warm water and soapuds, and with about three ounces of glycerin to the pailful of warm water. This will remove the mucous discharge which accompanies the feces. Then give the starveling a small bran mash—very small—for his contracted stomach will not stand a large one. Give him this with a boiled root or two twice the first day and a fairly liberal allowance of hay. He may eat more hay than is good for him if allowed it at first, so his ration must be restricted. The second day give him three small mashes, and the third day give him 1½ pints of raw linseed oil. Continue the mashes, increasing their size if no signs of colic appear, and the fourth day give him another quart of linseed oil, as before. This will most likely purge him severely, but that is what is wanted. Continue the injections till the third day, operating three times the first day and twice on each of the succeeding days. If the first oleate operates well, give a final injection at night and lay the syringe by.

After the oil has done all that it will do the mashes may be increased, and at the end of the first week a little crushed oats should be added to the bran, which should always be fed warm, but not sloppy. If the weather is not too cold, and the box in which the patient is kept is a warm one, the clippers should be run over his bony frame. The loss of the heavy coat will be a relief. If the box is a cold one or the weather severe, the coat should remain till circumstances warrant its removal. It should be taken off as soon as possible.

At the end of the tenth day or thereabouts, according to the severity of the case, grain may be added, the fattening process may be begun. The most important agent that may be employed is milk, in conjunction with flaxseed. Take ground flaxseed—the pure article, not the refuse of the oil mills commonly known as oilmeal—add boiling water to it and let it stand till the whole mass has assumed the form of a jelly. Then give three times a day, lightly at first, and increase it till the animal's full capacity is reached, a ration compounded in the following proportions: The jelly

formed by a pound of linseed, 3 pounds crushed oats, 2 quarts bran, a quart measure full of hay cut into three-quarter inch lengths and wet the whole with 3 quarts of new milk—skim milk will do if new milk cannot be had.

This will be rather too heavy a ration at first, but it can be decreased, observing the proportions. Let this be given three times a day at first, and after a week add the following: Give the first feed at 6 a. m. At 12 m. give this drink: The jelly from a pound of flaxseed, 3 quarts of milk, 2 quarts of warm water and the meal of a pound of crushed oats. Mix the whole together and gather the husks off the drink as they rise. At 2 p. m. give the regular feed, again at 7 p. m., and at 9 p. m. give drink. In a month the horse may be made to put on not less than 100 pounds of meat. Of course this will not be very serviceable meat, but by dry feeding and tapering off the milk and mash it can be utilized very well.

This system of feeding will make flesh quicker than any other and may be adopted with perfect safety if the attendant will take the trouble to notice how the amounts given are affecting the patient. The whole secret consists in first mechanically removing the effects of starvation on the intestines and then gradually working the digestive apparatus up to its fullest capacity. Until the stomach is able to take care of the full ration the effects of each feed must be observed so as to prevent the animal being "stalled." The horse may not like the milk at first, but he can soon be got to take it and crave for it.—Horseman.

Live Stock Points.

Isaac P. Tillinghast, writing in The Fanciers' Review, says that the Plymouth Rock comes nearest being the plain solid, all around business fowl desired on farms. He would, however, give it an infusion of White Indian game blood to get the breast development wanted by market men. This kind of fowl, Mr. Tillinghast believes, would do for egg production, broiling and roasting.

Protect your pasture spring so that the animals cannot foul it.

It is possible that the tuberculosis fad may go too far. There is such a thing as overdoing this business of slaughtering valuable cows.

A story is going the round of how a Bavarian farmer fattened his stock not only on dried small, tender twigs, which looks reasonable, but even on wood shavings. Of course it is the thing to admire his ingenuity and economy, but do not follow his example. It won't work in America.

In Europe the Aylesbury duck is the most prolific and therefore most popular.

FRANKLIN CO. HORSE BREEDERS.

The annual meeting occurred April 21st, and selected the following officers for the ensuing year: President, N. P. Harris of Salem re-elected; vice presidents, Henry D. Pike, Strong, and Geo. H. Brown, New Sharon; secretary, Rollo S. Sampson, Temple; treasurer, Chas. F. Smith, Farmington; auditor, S. O. Tarbox; Executive committee, Geo. W. French, E. K. Woodman, Geo. M. Voce, Geo. H. Brown and John W. Oliver; board of censor, J. S. Jacobs; S. O. Tarbox and Albert Jones; committee to look after outstanding bills N. P. Harris, J. W. Oliver and Henry P. Pike.

Voted to hold a trotting meeting, date and list of stakes and purses to be arranged by Executive committee.

R. S. C.

Don't abuse your horses. If you cannot get along with them without fussing and fighting them all the time, sell them or trade them to some one who can.

If you wish to build up the interest in horse matters in your section, send to us for free sample copies and distribute them among your horse-owning friends.

OLD WASH'S PHILOSOPHY.

ERBOUT DE TIME.

Erbout de time de spring buds out all ripe for song an' story,
Dair cums er blizzard from de Wes' and sends yo' flow'rs to glory.

Erbout de time you think yer boss can put three heats in twenty,
He take de lock-jaw in de back and goes to jine McGinty;

Or ef he don't, an' you conclude he's worthy ob his master,
He's sho' to meet some other boss that's jes' er leetle faster.

Erbout de time yer hear de fish hab chock-filled up de river.
You hab to take er free drug-sto' to try and move yer liver.

Erbout de time Br'er Possum climbs de 'simmon tree to hail yer,
De ole dog dies; de 'tater crop an' jes' an' jes' a total failure.

Erbout de time you think de wurl' can't get erlong widout you,
Jes' run for mayor ob your town an' see how quick dey'll rout you.

Erbout de time you think you am de greates' ob de sages,
Yer neighbors all jes' think you am de king fool ob de ages.

An' 'bout de time you think you'll rest—kase all things seem to fit yer—
Ole death slips up behind—bip!—you never know what hit yer!

\$15.00 STALLION SERVICE. \$15.00

TO MEET THE TIMES, I HAVE PLACED

McCUSICK'S SERVICE FEE

For May and June at \$15 to warrant; payable January 1. Now is the time to breed. Call and see the horse and ride after his colts.

Buckfield, Me., May 1, 1894.

L. L. FARRAR, Manager.

IMPORTANT

To Maine State Fair Exhibitors.

The Auburn Stove Foundry Company will make their usual fine exhibition at the Maine State Fair, to be held at Lewiston, Sept. 4-7. They make this offer to their friends.

They will give one of their best Royal Falmouth Ranges to the person who has in their possession a Royal Range that has been used the longest and is in the best state of preservation.

Here is a Royal chance to renew your old range, for if you have had a FALMOUTH you want no other.

We expect to get returns from ranges which have been used ever since we began to manufacture them 15 years ago and to find them in good repair to-day.

AUBURN STOVE FOUNDRY COMPANY,
AUBURN, MAINE.

CO-OPERATIVE SPRAYING.

For the Prevention of Insect and Fungous Development on Trees.

What better plan can be inaugurated among fruit growers than co-operative spraying? asks The New England Homestead. In some sections, in seasons favorable for insects or fungous development, whole areas are practically rendered unproductive because of ravages of these two classes of pests. The beneficial effects of spraying are well known to all wide awake fruit growers and farmers. Familiar with the evil and knowing the cure, would it not be a cheap and effective method of ridding fruit sections of pests and at the same time adding to the general thriftiness of the trees?

Arbor day is now generally observed in nearly all of the states, especially in the older ones, where farming operations are conducted on business principles, and in the western states, where the dry, arid plains render the desert winds and heat intolerable. Having laws for the encouragement of tree planting and highway ornamentation, why should not fruit growers associate themselves together into a pest protecting society, or, better yet, hire some reliable person to do the necessary spraying? The chemical materials are cheap, and pump, barrel and nozzle can be bought at what would be a trifling cost were they to be kept constantly at work throughout the season.

Fungous diseases and insects attack shade and ornamental trees the same as commercial fruit orchards. For both the remedy is the same. By concerted action, such as is recommended, the community in general and the fruit grower in particular would be immensely benefited, and an amount of good would be done that would undoubtedly be reckoned as representing many thousands of dollars each year. All that is required for this salutary service is such energetic action on the part of a few individuals as will serve to inspire others.

Successful Dahlia Culture.

The three important items in successful dahlia culture, as stated by American Agriculturist, are: 1. An early start. 2. A very rich, mellow soil. A sandy loam seems preferable. 3. Plenty of water all through the season. Cut the flowers freely. By so doing you increase the supply, as the plants are persistent in their efforts to form and perfect seed. They must be kept from doing this if they are to blossom large numbers of flowers up to frosty weather.

An Attractive Summer House.

Webb Donnell presents in American Gardening a design for a summer house that is an improvement on many that are seen about country houses, both in appearance and in the fact that it is somewhat more protected from the weather than many that are almost wholly of lattice work.

This is boarded up about 3½ feet with matched boarding, the boards used be-

DESIGN FOR A SUMMER HOUSE.

ing of equal width, with lattice work above, openings being left for two or more windows, as desired. The roof is "dishing," which gives a much more pleasing effect than one with perfectly straight lines. This, when shingled, should be stained, as should also the

sides and lattice work. A few vines trained around the doorway and windows will make a very attractive setting.

THE ROSE GARDEN.

Simple Cultural Hints—Classes of Roses Most Useful For General Propagation.

A light, airy position should be selected, but where cold north winds will be somewhat broken. Roses will not succeed if planted in the shade of trees or buildings; neither do they want to be planted in an inclosure where the sun beats upon them and all air is shut off from reaching them. The soil should be a good, friable loam, moderately moist and well drained. The soil should be thoroughly prepared and a liberal quantity of ground bone and well rotted sheep manure or cow manure added. Whatever the form of your beds, let them be rather narrow for convenience in cutting the flowers and working about them.

Of the different classes of roses most useful for general culture the Hybrid Remontants, or Hybrid Perpetuals, as they are called, stand first, after which come the Prairie roses, Hybrid Teas, Moss and Polyantha roses, Teas, Bourbons, Austrians and Hybrid China roses. In the latitude of New York all the above named classes except the Prairie roses will be benefited by some protection during the winter, and in the case of the Teas, Hybrid Teas and Bourbons it is absolutely necessary to cover them.

Rose plants should be given a dressing of good old manure annually, either in the spring or fall. If in the spring, it should be given before the beds are forked over, as it may then be worked into the soil. Water should be given during the summer if the weather is dry. As regards pruning, no rule can be laid down more than to say that weak shoots and weak growing plants should be closely pruned, while the strong growing ones must not be pruned closely, says American Gardening, authority for the foregoing.

Fine Foliage Plant.

Among all the ornamental foliage plants that come to perfection the first season from being sown the novelty Nicotiana glauca ranks foremost.

This is an annual, attaining a height of five to six feet in the open ground.

NICOTIANA COLOSSEA.

The leaves—about 3 feet in length by 18 to 20 inches in breadth—are erect at first, gracefully bending downward successively. When young, they are downy and of a reddish tint, changing to a glossy dark green later on, this lovely green contrasting beautifully with the reddish brown ribs. The plants being of branching habit and of robust growth, and the leaves being very tough, are not damaged by wind or rain. It is well adapted for sub-tropical gardening, either as single specimens or for groups with other ornamental leaved plants.

Two Good Blackberries.

Two of the new varieties that are gaining approval in many sections are Lovett's and Eldorado. Claims made for the first named are a trustworthy blackberry of large size, and a cane of ironclad hardness. It is productive and so far free from disease. Eldorado was an accidental seedling and takes its name from the town close by where it was found—in Preble county, O. It has been in cultivation for 12 years and under careful tests for four years at the different experiment stations. In every case they report that it has never winter killed. It is of fine quality and without core.

THE BARK OF TREES.

Tree Washes of Various Kinds That Have Proved Very Beneficial.

As a general thing healthy trees are able to get rid of the old bark without any help from the cultivator, but in many cases they are all the better for having a little help from man. In many species of trees there is an arrangement provided by nature for helping the plant to get rid of its bark. These are called in scientific language "suber cells"—that is to say, cork cells. These appear at first on the outer bark as small brown spots. From year to year, however, they develop, sometimes eating into the bark in longitudinal lines, and in this way form the cracks which ultimately result in what is known as rough bark.

As it is thus the design of nature to get rid of the outer bark, it is good practice to help nature in this work. For this purpose washes of various kinds are found in practice extremely useful. In fruit culture soapy solutions have been found very effective, and in the unscientific work of successful farmers even lime wash has been found beneficial. In some of the interior counties of Pennsylvania a farmer would almost as soon think of never cleaning his horses as letting his orchard trees go without a coating of lime wash once a year. The practical results of this treatment speak for themselves. No healthier trees or more successful fruit crops can be had than result from this practice, says Meehan's Monthly.

Gladiolus In Succession.

The plan advised by American Agriculturist is to plant part of the stock with the first work done in the gardens and again at intervals of two weeks until the 1st of July. Always save the bulbets of the best varieties. Plant these in the same manner as peas, and nearly all will bloom the second year. Take up the corms in the fall—about three weeks after they have flowered. It is a mistake to let them get too ripe. It causes the skin to fall off, when it should remain firmly around the bulb to protect the germ. Do not plant two years in succession in the same place.

Spraying Apple Trees.

For the codling moth spray the trees thoroughly twice with paris green, using one pound to 200 gallons of water and adding about two pounds of quicklime to prevent injury to foliage. The first spraying should be done just after the blossoms fall and the second a week or 10 days later. Later applications for the codling moth will not pay if the first ones are thoroughly done. These two sprayings will also rid the trees of the tent caterpillars and canker worms, according to Rural New Yorker.

California Poppy.

The Eschscholtzia California is one of the most conspicuous plants of the Pacific flora, and therefore it appears a natural choice for the Californians to have adopted it as the state flower. Their emblematic flower, however, is grown in all the gardens of the civilized world and is therefore of widespread interest. The beauty of the foliage and flowers of this plant is so well defined that it cannot well be spared from any border of annuals.

In Vick's Illustrated Monthly the plants are described as growing only to a foot in height and producing flowers in profusion. The color of the flower is a canary yellow. The plants grow quick-

STATE FLOWER OF CALIFORNIA.

ly from seeds sown in early spring in the open ground, but it is still better to sow the seeds in autumn, say late in Septem-

ber, and they will then be dormant until spring and start to grow as soon as the frost is gone and the soil begins to warm, and the plants will be much earlier than those from seeds sown in the spring. In mild climates the plant is perennial. It is a good edging or border plant, and can be used to advantage sometimes in ribbon beds and also in a bed by itself without any other plants. The plants will continue to bloom for a long season if given a little attention by removing the seed pods as soon as the petals fall and allowing none to produce seeds, as this effort exhausts the plant and checks the blooming.

Japanese Plums.

Japanese plums are finding favor. They are of comparatively recent introduction and need further testing in some localities. It is thought that, besides their productiveness and good flavor, they are less liable to rot than other sorts. Burbank's Japan is a fine dark colored one. Bolan has been well spoken of. Kelsey's Japan has not proved hardy, but is liked in the south. So is Satsuma.

The Lincoln Coreless.

The Lincoln is a novelty among pears. Its striking peculiarity is that the fruit is devoid of seed or core. It is described in Lovett's Fruit Guide as having originated in Tennessee. The fruit is large, high colored and handsome; flesh of a rich yellow tint, mellow and aromatic. In season it is late, and the pears are picked when hard and green and laid away to ripen.

Japan Variegated Hop.

Rural New Yorker wants everybody to buy a packet of seed of the new Japan variegated hop. It is a wonderful grower and will cover in one season a space 100 feet square easily. Few vines are more vigorous; few bear prettier leaves. The variegation is yellowish white upon green. Some leaves are solid green, others variegated slightly, some splashed and marbled in endless variety. No two leaves are alike in this respect.

A Serious Insect Enemy.

This insect, also known as the San Jose scale, which is the most serious insect enemy the growers of fruits in California have to contend against, first made its appearance in the eastern states last year. The United States department of agriculture urges upon fruitgrowers the importance of making examinations of their orchards to ascertain whether this insect has made its appearance. The insect is a small, flat, round scale, a little lighter in color than the bark of the tree, and will be found most abundantly upon the younger limbs and twigs. There is in the middle of each scale a small, elevated, shiny, blackish, rounded point. Sometimes the center of the scale appears yellowish. The wood underneath the scale is apt to be discolored and somewhat purplish.

When the insect is abundant, the bark is hidden by a layer of these scales, which to the naked eye give the appearance of a slight discoloration or a roughening of the bark. Fruitgrowers finding this scale should at once notify the department and send specimens. An emergency bulletin which will give a full account of the insect, together with the best means to be used against it, will be sent to all applicants as soon as published.

Horticultural News and Notes.

Mr. H. E. Van Deman, formerly pomologist in the United States department of agriculture, is contemplating a work similar to that of the late Charles Downing on "Fruits and Fruit Trees of America."

The belief is growing that Russian apples are going to make a great apple growing region of a vast extent of country in which apple culture on this continent has heretofore been impossible.

After years of patience and hard labor Samuel Miller of Missouri has succeeded in producing a seedless persimmon.

The commercial value of a nut tree on the farm is not apparently appreciated by many farmers.

To get fruit buds annually set a few trees in the nursery row, keep them there permanently and take off the buds as needed. In this way varieties true to name can be kept constantly on the farm or in the nursery. This is one of the best plans for getting varieties true to name.

BROADWAY

Race Record 2.29 1-2.

By Robert Smith son of Hambletonian 10; dam Volunteer Maid 2.27 by Volunteer 55, son of Hambletonian 10. Dam of Robert Smith by Eaton Horse 122.

BROADWAY is a bay stallion 15-3 and weighs 1150. He is inbred to the Hambletonian family which is the acknowledged source of speed. Inbreeding has produced some of our best and fastest performers an instance of which is Like-wise (4) 2.23 1/4, the best race winning four year old which ever went from Maine and whose record had never been equalled prior to 1893 by a Maine bred four year old. Broadway when taken in hand was fat and had not been worked for speed. In his first race he took a record of 2.32 1/2. The succeeding Saturday he trotted to a record of 2.30 winning both races and at Dover the next Tuesday on a poor half mile track made his record of 2.29 1/2, making three races in one week. He is now in good condition and will be trotted this season when he should lower his record to 2.25 or better.

He is a trotter, a sire of speed and also of early speed. One of his colts has held the Maine yearling half mile record and there are others which will be entered in stakes and purses this season.

Hambletonian is the sire of 40 in the list and his daughters have produced 98 as given by Wallace. As pacers having a mark of 2.25 or better only are admitted it is probable that his producing daughters are cut down somewhat. Volunteer got St. Julian 2.11 1/4 and 31 others and his daughters have produced 55 performers such as Brava 2.14 1/2, Homestake 2.14 1/4, Ripple 2.17 1/2, and that great sire Sidney (an inbred Hambletonian) and sire of five yearlings in the list; three two year olds; Faustino 2.14 3/4 and six other three year olds in 2.30 or better, and a total of 50 performers in the list, a showing far ahead of any other twelve year old sire; all of which shows the potency of the Hambletonian blood and inbreeding to that line.

Terms \$20 by the Season

with return privilege if mare does not prove in foal.

H. L. WILLIAM, Manager.

F. W. HILL, Proprietor, Exeter, Maine.

2.29 1-4 OWOISSA 2.29 1-4

OWOISSA is a son of a noted Campaigning Stallion Onawa 2.22 1/4 who has 77 heats in 2.30 or better to his credit and a record of 2.18 with running mate, by Goodwins Hambletonian. Owoissa's dam was Lady Camey undoubtedly by a daughter of Gen. Knox, she is the dam of Wedgewood Jr. 2.31 1/4 with repeated trials of 2.25. She was a mare of indomitable courage and gameness and her colts all inherit that quality and can trot all day if necessary. Owoissa stands 16 hands weighs 1075 lbs, color black. He is a horse of great style and finish and has a disposition that is perfect. Will serve a few mares at the extremely low price of \$15 by the season. For further particulars, address his manager

BEEN HID THE MOTTLED BAY STALLION DYNAMO

WILL STAND AT THE

Fairservice Farm, at Sheepscot Bridge.
Limited to a few first class mares from 900 to 1200 pounds.

TERMS \$15 dollars to warrant, but parties bringing mares having a record of 2.30 or less, there will be no charge until either this horse or the foal trots to the mares established speed at the time of service, and then it shall be \$20 for 2.30 time and \$75 for 2.10, and all intermediate seconds reckoned according to this ratio.

DYNAMO, THE FIRST

Is one of the handsomest four year old colts and the finest make ups, has only been handled to break. Was sired by Young Watchmaker, record 2.30, he by Old watchmaker 2.31 and a fraction but trial 2.22 1/2, he by Winthrop Morrill and he by Gen. Knox, a great horse.

Highlow the mother of this colt is one of the finest and fleetest old mares in the country, but was never allowed on the track, is twenty two years old and now just like a colt to handle, possesses a handsome head and carries a most brilliant landscape eye of any of the equine race. Three years ago while coming from the race course, this mare hauling a 370 pound wagon, could not be headed by the winner of a 2.20 horse so called, in two wheel vehicle, but having a record of nearly that.

This dam was sired by Young McLellan, he by Gen. McLellan 2.26 or 9 and a half and he by Old Drew, which was the son of the best stock.

Second dam a great roadster, and living upwards of thirty five years with sound feet and legs, was by the famous Call horse, a handsome English stallion, that trotted the first mile in three minutes at the Maine State Fair forty years or more ago, he was by thoroughbred Cannon Ball, and from a Tam O'Shanter mare.

Third dam pronounced the best horse on the old Rockland stage line; being powerful and fleet, and a terrible gritty quadruped, hardy stock.

Shall reserve the right to reject any that is not satisfactory. Pasturing at the usual rate.

H. W. SARGEANT.

Weekly Auction!

30 HORSES!
30 HORSES!
SEVENTH SALE!

The Undersigned has Established Himself at 190 Federal St., Late Brown's Stable, and will Conduct an Auction of First-Class Draft, Driving and General Business Horses,

— ON —
FRIDAY, MAY 4,

AT 10.30 O'CLOCK A. M.,
and on same day EVERY WEEK thereafter. Watch the daily papers for particulars. Every horse to be sold without reserve, to the highest bidder. Everything will be just as represented or money refunded.

Remember, that these horses are all fresh, young and desirable, and ready to go into any business. Can be inspected on day previous to sale. Also horses at private sale every day in the year.

Horses, Carriages and Harnesses sold on Commission.

Your patronage solicited.
S. J. MURRAY,
Federal Street, Portland, Maine.

Owing to the still increasing demand I shall have two loads of horses each week Tuesday and Thursday mornings, until further notice. All good young, sound, well broke horses suitable for all purposes and the prices lower than ever.

RED IMP is a good representative of the Wilkes family, and combines about as many good qualities as can be found in a single individual. He is of good size; standing 15-3 hands high, good feet and legs, and weighs 1100, intelligent head, and a disposition of the very best. His gait is all that could be desired, perfectly pure and frictionless. He has already give evidence of his ability to go into the 2.30 list. His first and only foals show a high degree of quality, finish, and action, stamping him a grand young horse. His choice breeding, size, finish, speed and perfect action commend him as a Stock Horse. RED IMP will be in the hands of

N. R. BROWN, BLACKSMITH,

MECHANICS' ROW, AUBURN, ME.

Terms \$10. to warrant. Mares disposed of will be considered in foal.

Selecting a Music Teacher.

Pupils who take lessons of an incompetent teacher for several years and afterward study with a thorough teacher always find that they are obliged to go back to the beginning. The instruction (?) they have received has too often been worse than no instruction at all, and time and money have been wasted. All this might have been avoided if the pupil had been more careful in selecting a thorough teacher at the beginning.

Pupils who have been taking lessons for a year or two and do not know the difference between the legato and staccato touch and play pieces and do not know what key they are written in should know that there is something wrong and should find out as soon as possible whether the fault is theirs or their teacher's. If it is the former, they had better begin to use their brains as well as their fingers in practicing, but if it is the latter they had better change teachers, says The Etude.

Fashion Notes.

If so desired, a sachet scented with the owner's favorite perfume may be placed in the handkerchief box or case, but the custom is not so much favored as formerly, perfume being objectionable to many people, especially in a warm, close atmosphere.

Now we are witnessing quite a revival in steel ornaments for bonnets. The combination of black velvet and steel is decidedly pleasing.

A Point in Vine Pruning.

Cultivators have frequently noticed that the severe pruning of a grapevine to keep it dwarf has a tendency to lessen its vital power, but yet, notwithstanding this weakening of vital power, it is absolutely essential at times that fruits should be severely pruned in order to keep them within certain bounds or for other good economic reasons. Where, however, asserts Meehan's Monthly, a vine can be allowed to extend, as it naturally desires to do, the result in longevity and productiveness is very remarkable.

Floral Notes.

Martha Washington is a wonderfully beautiful and floriferous rose, but it is only quite hardy in the south. In the northern states it will seldom survive the winters in the open ground unless well protected.

Petunias make very handsome beds, the single varieties being best adapted for this purpose.

The Brunant type of geraniums give satisfaction for bedding where hot, dry summers prevail.

In the way of vines grow Lobb's nasturtium, Maurandia Barclayana and Thunbergia alata.

Summer flowering oxalis, although they don't make much of a show, are free and long blooming and quite pretty.

The dwarf nasturtiums are useful for bedding, massing or ribboning.

Marlequin is a new and attractive variety of sweet william.

Live Stock Points.

The hackney of England is the general purpose riding and driving horse.

Messenger, the great ancestor of all the trotting stock in America, was a hackney. The modern American trotter and the hackney are therefore faraway cousins.

Feed clover and sell timothy.

One family we have heard of make the dog do duty both as a watcher and washer. He works the washing machine, which is in this case an abandoned swing churn.

An esteemed contemporary recommends feeding apples to live stock. With all our heart! Bring on the apples.

A race track horse wants from four to six miles exercise at a moderate pace every day through the winter and spring before he begins the season.

Two quarts of oats, two or three ears of corn and 15 pounds of hay at a feed is about the ration needed for an idle track horse in cool weather.

Mrs. F. M. Wheeler of Geneva entered for the New York poultry show one yard of fowls valued at \$1,500.

Whatever kind of stock you have to sell, watch the city markets as quoted in the newspapers. Take no man's word who wants to buy.

CUT THIS OUT

ACHILLES.

Standard Bred
Trotting Stallion,
NO. 22,408.

RECORD—2.35½ at five years old.
Trial record on half-mile track, 2.27.
ACHILLES is a beautiful bay, standing 16 hands high.

SIRE—Carenaught, No. 9603, by Fearnaught, No. 132; record, 2.24½. (In his time the fastest stallion in the world; last half mile in 1.07 from a standing start.) Dam of Carenaught, Lady Richmond, record, 2.21 (on ice), by Cadmus, by American Eclipse; Achilles dam, Old C. M. Clay; also dam of Manchester.

Achilles is the sire of Themis, record 2.25; Blanch R., record, 2.28 1-2, Marchoness, record, 2.32 1-2, and three others out of his ten first foals that can beat 2.30.

Achilles gets size, style and beauty; just what there is a great demand for to-day. It is believed by some of the best judges that he will get as much speed as any horse standing in Maine.

In order to introduce this horse to the public, I have fixed his services at the remarkably low price of \$15 TO WARRANT.

Will make the season of 1894 at

D. M. ALLEN'S
Jay Bridge, Maine.

AL. DUDLEY 968

RECORD 2.34 1-4.

Sire Mambrino Dudley, record 2.19¾, sire of Cresendo 2.24, Tracy 2.26½, Gretina 2.27¼, Rintoul 2.28¾, Rinaldo 2.28¾, Almont Dudley, (at 2) 2.33½, Al. Dudley 2.34¼, Mambrino Dudley by Woodford Mambrino 2.21½, sire of 12 in 2.30 list, by Mambrino Chief 11, sire of 6 in 2.30 list. Al. Dudley's first dam Lady Almont by Almont, second dam by Brown Chief 445, sire of Maggie K. 2.29 1-4, and sire of the dams of four in the list.

Al. Dudley is a beautiful seal brown stallion, 15¾ hands high, weighs 1100 pounds, foaled in 1880. He is a horse of great intelligence and perfect disposition. His record is no measure of his speed, as we hope to prove this season. His colts are large, of good style, and good gaited. Al. Dudley will make the season at \$15, to warrant; \$10 by the season. For further particulars address

SUTTON STOCK FARM, Orono, Me.
J. FRANK DAVIS, Manager and Trainer.
Horses handled for speed or road.

SEASON OF 1894 SIR BYRON P.

Is one of the handsomest, and most stylish Stallions living, Bred by Byron Porter, of Stillwater, Me.

SIRE, Bayard of Houghton farm, imported from France.

DAM, Percheron and Clyde.

I Purchased the above Stallion when one year old expressly for stock purposes believing him to be just such a horse as farmers and all breeders of draft and business horses ought to use, and have put his service fee within reach of all. In my opinion no better horse stands in Maine. He is very trappy gaited, a very fastwalker, has fine action, and can road as easily as most horses of one thousands pounds. He has the best of limbs and feet, is very finely made in every point, and has perfect disposition.

I shall be pleased to show him to all who may call at my stable, and feel confident that no one will say that I have said enough in his praise.

SIR BYRON P. is a beautiful Iron Gray 5 years old, 17 hands and weighs 1635 pounds. He will make the season at my stable on Bennoch road, leading from Stillwater to Pushaw, except Monday and Tuesday of each week, commencing May 7th, at Frank Miller's Stable in Greenfield.

TERMS TO WARRANT, \$10.00.

Accidents at owners risk. Colts holden for service. Service fee payable when mare proves with foal. \$5.00 single service. Cash at time of service.

JMAES B. FARNHAM.

TO BREEDERS OF THOROUGHbred STOCK. THE MCFADDEN PEDIGREE BOOK IS INDISPENSIBLE.

The increasing interest in the breeding of fine stock, and difficulty heretofore experienced in tracing the pedigree of breeding animals, has shown the necessity of some compact and simple form of record to be used by all who engage in the rearing of good stock, to the end that an authentic record may always be found in the hands of the breeder that will establish beyond a reasonable doubt the breeding of the animal whose pedigree is sought.

This simple device has been published in book form, each book containing blanks for 100 pedigrees. Upon the birth or purchase of an animal, its pedigree should be at once traced and entered on one of the blank forms as fully as may be ascertained, and on opposite page, under the head of MEMORANDA, enter color and full description of the animal.

As the Memoranda may be added to as occasion may require, you will have a complete history, as far as possible, of each animal in your possession which will always be at hand for reference. Of course the form may be used for cattle, sheep, swine, etc., as well as for horses. This book, neatly bound in cloth, and containing the new standard rules for breeding horses, will be mailed, postage prepaid, to any part of the United States or Canada, upon receipt of one dollar, by

The Turf Publishing Company,
Auburn, Me.

THE above cut is an exact reproduction of the cover design of the PORTFOLIO BINDERS which we are now offering to our readers. They are made of the Best English Silk Cloth, handsomely bound and embossed in black, blue, and gold, the design being artistic and attractive, making a handsome

ORNAMENT FOR THE CENTRE TABLE.

It will keep all the parts free from dust and can be utilized for that purpose, beginning with kart 1.

There is no need to wait until the whole series of Parts are issued, when as a rule, they are so soiled and worn as to render them unfit for binding, but you can BEGIN NOW and keep each part in good condition.

"G. M." REMEDIES

THE GREATEST RESULTS EVER KNOWN.

IT IS THE OLD, OLD STORY,

"THE ONE HALF NEVER WAS TOLD."

An Ounce of Preventive is Worth More

Than a Pound of Cure.

E. A. BUCK, proprietor of Black Hawk Wilkes Bangor, has a word to say in regard to "G. M. Remedies,

BANGOR, Dec. 28, 1891.

GEO. M. FOGG,

Dear Sir—In answer to your request, I state that my stallion Black Hawk Wilkes was in poor flesh and we found it impossible to improve his condition. His coat was rough and his food came from him in an indigested state. The stablemen obtained a box of your horse powders and commenced giving it to him. In ten weeks he gained over 100 pounds. He expelled over fifty intestinal worms, from eight to twelve inches in length, that we know of, and probably a great many more. I consider them an invaluable remedy.

Yours respectfully, E. A. BUCK.

**C. A. PARTRIDGE,
VETERINARY SURGEON.**

Treats all diseases of domestic animals. Special attention to all operations and treatment of all kinds of lameness, Colts and Stallions castrated by most improved method, at \$2 for colts and \$5 for aged horses, when there are 5 or more at one place, and traveling expenses and guarantee as good a job as anyone can do. Have castrated 6 years and never lost one.

Orders by mail, telephone or telegraph will receive prompt attention. Office at A. D. Horn's Livery Stable, Farmington, Maine.

Horses at Auction

35 Complete Novels

NEATLY BOUND,

and a Year's Subscription

to a large 16-page illustrated monthly magazine for **ONLY 30 CENTS**. This is a most liberal offer as **HOUSEHOLD TOPICS**, the magazine referred to, is a high-class paper, replete with stories of love, adventure, travel, and short interesting and instructive sketches of fact and fancy; and in the list of 35 novels are such treasures as "A Brave Coward," by Robert Louis Stevenson; "Blacksmith's Daughter," by Etta W. Pierce; "Ninetta," a most pleasing story by M. T. Caldor; "A Gilded Sin" and "Between Two Sins," by the author of "Dora Thorn"; "The Truth of It," by the popular writer, Hugh Conway; and the "Moorehouse Tragedy," rather sensational, by Mrs. Jane C. Austin; "A Heroine," a delightful story by Mrs. Rebecca H. Davis; "Wall Flowers," by the popular Marion Harland, and the great story "Guilty or Not Guilty," by Amanda M. Douglass. Space forbids mentioning the other novels; but they are all the same high grade, popular, bright, romantic, spicy, interesting stories.

The 35 novels and the current issue of **HOUSEHOLD TOPICS** will be sent you the day your order is received. This will supply you with a season's reading for a mere song; and will be appreciated by all in the household. Send at once 30 cents to **HOUSEHOLD TOPICS PUBL. CO.**, P. O. Box 1159, New York City, N. Y.

Valuable Presents Free.

We wish to introduce our System Pills into every home. We know that we manufacture the very best remedy on earth for the cure of Constipation, Biliousness, Sick Headache, Kidney Troubles, Torpid Liver, etc.; and that when you have tried these pills you will gladly recommend them to others, or take an agency, and in this way we shall have a large, well-paying demand created.

As a special inducement for every reader of this paper to try these pills and take an agency at once, we will give to each person who sends twenty-five cents in cash, or thirty cents in stamps, for a box of System Pills, one of the following presents: A Handsome Gold Watch, a good Silver Watch, a Valuable Town Lot, a Genuine Diamond Ring, a Casket of Silverware, or a Genuine \$5.00 Gold Piece. Every purchaser gets one of the above presents. There are no exceptions. Shaw Remedy Co., Rutherford, N. J.

Standard Stallions For 1894.

1. CONSTELLATION, sire of Patrol 2.14½, Glenarm 2.23½, Junior 2.27½, Mahomet 2.27½, Illusion 2.24, Independence 2.30. Terms \$15 by the season or \$25 to insure.

2. TIDEMARK, by Victor Von Bismark, dam by Twilight by Hambletonian 10. \$15 and \$25.

3. GAME BIRD, by Jay Bird by Geo. Wilkes dam by Honest Allen. \$10 and \$20.

4. CHOICE BIRD, by Eagle Bird 2.21, by Jay Bird by Geo. Wilkes. First dam, Valor, daughter of the King, son of George Wilkes; \$25 to insure.

5. LANCING, by Electrotone son of Electioneer, dam Macbeth (dam of Lakewood Prince 2.13½,) by Woodford Mambrino. \$10 and \$20.

6. PLEIADES, by Constellation dam by Emperor William 2.27½. \$5 and 10.

These horses are all bred in the purple. Best of all they are good individuals and stand this season at hard times prices. Special attention is called to Constellation the premier of the stud. His specialty is the getting of extreme speed out of common bred mares.

For Description and Extended Pedigree Address, **H. E. HALEY, Monroe, Maine.**

THE MECCA LINIMENT.

TO THE MECCA LINIMENT CO., Malden, Mass.

Gentlemen:—One week ago today a pair of young horses broke away from me while unhitching them, and ran into a barbed wire fence, and taking post and all, cut them terribly. The next morning one of them could hardly get out of the stall. I put Mecca Liniment right on and have used it freely ever since. The wounds are practically healed already, so that today I drove both horses as usual. For man and beast Mecca Liniment is the best in the world. Please send me a dozen bottles by express right off.

Yours truly,

(Signed) AUSTIN BECKWITH.

New Hartford, Conn., Dec. 15, 1893.

"The King of the Cornfield."

CORN PLANTER AND FERTILIZER DISTRIBUTOR.

Plants Corn, Beans, Peas, Beet and Other like Size Seed, together with any Kind of Fertilizer, Wet or Dry.

The Fertilizer drops at the same instant separately and to the right and left of the seed and mixes with the soil, thus avoiding all danger of injury to the seed. The machine will drop any desired quantity of seed or fertilizer at a time at equal and various distances apart in hills, checks or drills. The feature of dividing the fer-

tilizer and mixing it with the soil is not embodied in any other machine. One man with one horse can plant from seven to ten acres in a day. Pat. June 18, 1893.

SEND FOR DESCRIPTIVE CIRCULARS AND TESTIMONIALS.

Many improvements for 1894 have been made. The Fertilizer Register added this season will adjust the amount of Fertilizers used from 20 lbs to 700 lbs to acre. Has a gauge indicating the number of hundred pounds required. Also new Steel Covers with Tension Spring, adjustable to keep the same in place. Also many other improvements.

We offer one of the above Corn Planters as a special Premium for the Best Two Acres of Sweet Corn grown in Maine season of 1894. See Maine State Fair Premium list 1894 for conditions and so forth or send to us for a copy. Competition invited.

THIRD DAY, JULY 6. 2:34 Class—Trotting, Purse \$300. 2:22 Class—Trotting, Purse \$500. 2:24 Class—Pacing, Purse \$300.

CONDITIONS. Five to enter and four to start to fill in class events. Nothing deducted from money winners in colt stakes 1, 2, 3, and 4, but in all other Stakes and Purses 5 per cent will be deducted from winners. Stalls and straw free to starters.

Division—50, 25, 15 and 10 per cent. No entry liable for more than amount paid in, but a non-payment forfeits previous payments. Above Stakes are for face value—no more, no less, and in no case will any horse be paid more than one money.

National Trotting Association Rules to Govern. All in harness. In any and all of the above stakes we reserve the right to refund the first payments and declare the same off, should they not fill satisfactorily.

"No nominations received unless accompanied by first payment." All horses in above Stakes and purses intending to start, must be declared with Secretary by 6 o'clock P. M. of the day before the race, "and if not declared in" by the date and hour indicated, they will be struck out and ineligible to start in the race.

The usual Weather Clause, right to change order of Programme is reserved. Rigby Park was constructed by MR. SEBASTIAN GRIFFIN, the noted track builder, and is pronounced by him the Fastest and Safest Regulation Track in the World.

For entry blanks and information, address, GEORGE BURNHAN, Jr., President. J. F. BARRETT, Secretary, H. F. FARNHAM, Treasurer. P. O. Box 827. Portland, Maine.

Old Orchard meeting June 26, 27 and 28, Aug. 14, 15, 16, and 17. Same classes as given by Rigby. Fall meeting at Rigby Oct. 2, 3, 4, and 5.

THE STALLION ROBINSON D.

Race Record 2.17 3-4.

WILL MAKE THE SEASON OF 1894

AT THE STABLE OF HIS OWNER,

ROBINSON DEAN,
BUCKFIELD, ME.

ROBINSON D. is a brown-bay horse, with narrow white stripe in the face and two white ankles on the near side. He was foaled in 1881, stands 15 $\frac{3}{4}$ hands high, and is a well proportioned horse all over. He was got by Daniel Boone, son of Hambletonian 10 and Old Kate, hence a full brother to the famous Bruno-Brunette family. The dam of Robinson D. was by Cobb's Young Brandywine which came from Canada in 1853. This mare was not fashionably bred, but she was more than that—she was a producer of speed by any horse to which she was bred.

In 1890 Robinson D. was campaigned and won at Syracuse, Auburn, Oswego and Phoenix, N. Y., winning six races without losing a heat and a record of 2.26 $\frac{1}{4}$, all on half mile tracks.

In 1891 Robinson D. started in five races, winning every one in straight heats, and lowering his record to 2.23 $\frac{3}{4}$ at the New England Breeders' Meeting at Mystic. His next start was at Rigby Park, Portland, in October last, when in a field of 16 starters, he won in 2.19, 2.17 $\frac{3}{4}$, 2.18 $\frac{1}{4}$, and could have gone in 2.15.

It now looks as though, successful as Robinson D. has been as a trotter, that he will be a still greater success as a sire, for he has to his credit Black Nathan (2.26 1-4), Nellie D. (2.27), Belle D. (2.28 3-4), Belle Chase (2.23 1-4), Etta Boone (2.27 1-4), and Evelyn (2.29 1-2) all from a class of mares which would be by no means considered as fashionably bred.

Robinson D.'s colts all show more or less speed, and there are hardly any of his get that cannot show from 3.00 to 2.40 without training.

TERMS, TO WARRANT, \$50.

Mares boarded at reasonable rates.

ROBINSON DEAN, BUCKFIELD, ME.

1894 ————— SEASON OF ————— 1894
2.17 $\frac{1}{4}$ - ALBRINO, 3052, - 2.17 $\frac{1}{4}$
CHESTNUT HORSE, 16 HANDS.

By Almont 33, dam by C. M. Clay Jr. 22, sire of Iona S. 2.17 $\frac{1}{4}$, Fauntleroy, trial 2.18 $\frac{1}{4}$, Albrino 2.27, Audubon 3, 2.53 to wagon, Albrina 2 years, 2.42 $\frac{1}{4}$, Odd Fellow, one year old 1.32, half mile, also sire of Elsmere which got Eldora, mile in 2.30 last season at 3 years, Almont sire of Westmont 2.13 $\frac{1}{4}$, 2.01 $\frac{1}{4}$, with running mate, Fanny Witherspoon 2.16 $\frac{1}{4}$, Piepmont 2.17 $\frac{1}{4}$, and 34 others; dams of Winslow Wilkes 2.09 $\frac{1}{4}$, Alabaster 2.15 and 72 others. His sons have sired such as Flying Jib 2.04 and dam of Fantasy (3) 2.08 $\frac{1}{4}$.

Dam of Albrino Maggie Bryan by C. M. Clay Jr. 22, sire of four in 2.30, and dams of 34 in the 2.30 list. Second dam Belle Bryan, full sister to Patchen Mambrino, sire of the game campaigner Walter E. 2.10 by Mambrino Patchen. Third dam Old Den, granddam of Wildrake 2.22 $\frac{1}{4}$, McLeod 2.21 $\frac{1}{4}$, and Eric 2.28 $\frac{1}{4}$, by Gaine's Denmark by Denmark son of Imported Hedgeford.

Albrino is a horse of fine presence, large sized and possessed of great style and finish. His get have the same qualities, are excellent roadsters and as will be seen are proving fast.

Terms, \$25.00 to Warrant.

H. G. PARSHLEY,

Dexter, Maine.

2.16 $\frac{1}{2}$ - AUTOGRAPH - 2.16 $\frac{1}{2}$

Sire of 4 in 2.30 list at 10 years of age.

THE FASTEST TROTTER SON OF THE GREAT ALCANTARA, 2.23.

DAM, FLAXY, IN THE GREAT BROOD MARE LIST, BY KENTUCKY CLAY.

TERMS, \$100 CASH, WITH THE USUAL RETURN PRIVILEGE.

NEEDHAM'S WHIPPLE 2, 2.27 $\frac{3}{4}$ by Steve Whipple, race record 2.12; dam Young Flora Hill, by Chieftain 721, sire of 4 in 2.30 list. Limited to five approved mares, at \$50 cash, with usual return privilege.

DYNAMITE Sire, Midas, (sire of the game trotting mare Miss Edith, 2.19, and 3 others in 2.30), by Onward, 2.25 $\frac{1}{4}$, out of Cachuca (dam of Catchfly 2.18 $\frac{1}{4}$), by Almont. Dam, Cyclone, by Stockbridge Chief Jr., son of Magic, by American Clay 34. Terms, \$35.

For further information, address,

MUSTER HILL FARM, New Braintree, Mass.

Or **GEORGE A. LITCHFIELD, 53 State Street, Boston, Mass.**

SCIENTIFIC HORSE FOOT LEVELLER.

DIRECTIONS.

Draw a string or wire around the hoof just below the hair; double the string and place the end in the center of the frog at heel; run it around to center of foot in front and make a mark. The center of the frog is the center of the foot behind. The mark in front is the center in front, provided you have measured right. Place the level No. 1 on the foot, with No. 2 in center of the frog. Screw the set-screw No. 3 into the mark on the center of the foot in front. If the foot is level it will show like cut "A." If not like "B." At the same time it gives you the angle of the foot with Nos. 4 and 5.

Price, \$3.00.

For Sale, Wholesale and Retail,

By **HOOD & REYNOLDS, 178 Tremont Street, Boston, Mass.**

P. S.—The long rod to which set screw No. 3 is connected also gives length of toe in inches.

THE TURF, FARM AND HOME is to-day in touch with more Horsemen in New England than all other Maine Publications combined. Make a note of it.

"BREED TO A PRODUCER." WOODBRIÑO

3296. 2.25 1-2.

Bay horse, no marks, foaled 1883, stands 15-3 hands, weight 1100 lbs.

SPECIAL PREMIUMS

OFFERED BY

J. S. SANBORN

AT THE MAINE STATE AGRICULTURAL FAIR.

For the best foal of 1893 sired by Gemare, Lothaire or Captain \$25.00, provided blue ribbon is won at the coming Maine State Fair, season of 1894.

For best foals of 1894 shown at the Maine State Fair sired by Gemare, Lothaire or Captain, two or more to enter, \$30.00; the first \$15.00, second \$10.00 and third \$5.00.—\$15.00 additional to the winner of the blue ribbon.

The same liberal premium as above will be offered for foals of 1895.

It will pay you to breed to these stallions. Remember that colts by these stallions won first honors in direct competition with the trotting stock of Maine at the last State Fair. No stronger evidence of individual superiority is necessary. Breed your mares where merit is insured in the colts.

aug 3 94

SEASON OF 1894

BAY VIEW STOCK FARM.

SEASON OF 1894

THE FOLLOWING STALLIONS WILL STAND AT THIS FARM DURING THE SEASON OF 1894:

SILVER SPRAY 2.28

Chestnut horse foaled 1887. Sire Guy Wilkes 2.15 1/4, sire of Huldry Wilkes 2.08 1/4, Muta Wilkes 2.11, Hazel Wilkes 2.11 1/4, Regal Wilkes 2.11 3/4, Siva Wilkes 2.13 3/4 (at four years) Una Wilkes 2.15 (at six years) Regal Wilkes 2.17 1/2 (at 3 years) Lillian Wilkes 2.17 3/4 (at five years old) Regal Wilkes 2.20 3/4 (at 2 years) Freedom 2.20 3/4 (at 1 year). Guy Wilkes by Geo. Wilkes by Hambletonian 10. First dam Blanche trial quarter mile 40 seconds at 2 years old, dam of Silver Spray 2.28, Hazel Wilkes 2.11 1/4, Una Wilkes 2.15, Gina Wilkes 2.28 1/2, Rosebud Wilkes 2.31 1/2, Blanche by Arthurton 365 by Hambletonian 10. Arthurton is sire of Arab 2.15, Joe Arthurton 2.20 1/2, Lady Escott 2.26 1/2, Bonanza 2.29 1/2 and sire of dams Hidalgo 2.24 1/2, Grandel 2.23 1/2. Second dam of Silver Spray, Nancy by Gen. Taylor. This grandly bred young stallion will serve a few outside mares at the low fee of \$50 cash or satisfactory note at time of first service. Season closes July 1st.

TORPEDO

Black stallion foaled 1891, stands 15 3/4 hands. Sire Cartridge, record 2.14 1/2, son of Edward Everett. First dam of Cartridge was Lady Stout record 2.29 as a three year old. Torpedo's first dam Adina by Dictator. Second dam Lady Lightfoot by Mambrino. Third dam by Paddy Bums. Fourth by Moseley's Copperhead. This is one of the finest bred colts in the state and will stand at the low fee of \$25. Season closes July 1st.

ELECTROLYGHT

Bay stallion, black points, foaled 1890. Sire Electryon, record 2.25 1/2 by Electioneer. First dam of Electrolyght was Jesse Wedgewood by Wedgewood 2.19. Second dam Dolly of Weston, dam of Ino 2.21, Wild Eyes 2.20 (pacing) Red Bird 2.37. Terms \$15, season closes July 1st. Service fees are cash or satisfactory note. Brood mares 75 cents per week on grass, \$2.50 per week on hay and grain. All accidents and escapes at owners risk. For further information address,

FRANK W. BURRILL, Belfast, Me. or GEORGE D. OTIS, 173 State Street, Boston, Mass.

BLUE WILKES.

Bay horse 15 3/4 hands high, weighs 1100 lbs. foaled June 1, 1888. By Wickliffe 2520 by George Wilkes 2.22 out of Patchen Maid dam of Astral 2.18, by Mambrino Patchen 58, by Mambrino Chief 11.

1st dam Waterwitch dam of Administrator, Jr. 2.31 by Blue Bull 75, sire of 60 in 2.30.

2nd dam by Tom Hal 3000, sire of Limber Jack 2.18 etc., dam of Buffalo Girl 2.15 1/2, Jerome Turner 2.15 1/2 etc.

BLUE WILKES is very handsome, well proportioned docile, intelligent, grandly bred, pure gaited and fast. Though never trained, he went a trial mile as a two year old in 2.49 to road cart and in 2.41 as a three year old under same conditions, and as a four year old could show a 2.30 gait.

He combines the blood of George Wilkes 519 and Blue Bull 75, two of the greatest of sires and is rich in the Wilkes, Hambletonian, Mambrino Patchen, Mambrino Chief strain of blood.

Book open to 25 approved mares at \$15 season. Blue Wilkes will make the season at the farm of

J. F. GOULD, - - - Prospect, Maine.

BOURBON KING

Sire Bourbon Wilkes, sire of Charleston 2.21 1-2, Abdallah 2.14 1-2, Tilford 2.17 3-4, and 34 in the 2.30 list. Bourbon Wilkes was by Geo. Wilkes 2.22, sire of Harry Wilkes 2.13 1-2, Guy Wilkes 2.15 1-4, Mike Wilkes 2.13 1-4, Wilson 2.16 1-4, and 82 with record lower than 2.30. Geo. Wilkes, whose sire was Hambletonian 10, sire of 40 daughters whose sons sired 955 trotters and 48 pacers, and whose daughters produced 73 trotters and one pacer.

The first dam of Bourbon King was Neoskoleta, trial 2.29. She was by Young America, sire of Hazor 2.26 1-4, and many other fast ones. The second dam is untraced; his third dam was by Abdallah Chief, sire of Abdallah Maid. She produced Mamie W. 2.27 1-2, Lady Mamie 2.29, Lady Independence 2.29 1-2. The fourth dam was by Blackwood.

BOURBON KING is a roan stallion, stands 16 hands high, four years old, and weighs 1100. He is evenly made, well finished, and a very intelligent horse. His head is best described by the word "sensible," a good size, yet not gross or dull. His feet are of the best and stand well under him. He has a fine, thin ear, which shows high breeding. His shoulders and chest are good length and depth, which denotes good lungs. His gait is elastic, sweeping and springy, and his whole bearing impressive.

If a man who breeds to Bourbon King misses a turf horse, he is sure of size and beauty that bring money for park and road. Referring to his pedigree above, we consider him one of the best bred stallions that stands in New England.

He will stand in Haverhill, Mass., to a limited number of mares, during the season of 1894. For full terms apply to

FRANK W. CHASE, HAVERHILL MASS.

P. S.—Good stable board and pasture.

NELSON WILKES

Chestnut horse, foaled 1890 stands 15 2 1-2, weight 1000 pounds. Sire Wilkes 857 1/2, dam Stella Rolfe 2.35 by Nelson 2.09. Second dam by son of Witherell Messenger, third dam a Drew mare. Wilkes is the sire of such campaigners as Col. Osgood 2.18 3-4, St. Croix 2.21 1-4 and five others in 2.30 or better at 10 years of age. Four of his get went into the list as four year olds and reduced their records at five years of age. Col. Osgood, St. Croix and Fred Wilkes will trot in 2.15 or better and he will put several in the list in 1894. Wilkes was by Aleyone 2.27 which died at 10 years of age. Had he lived he would have proved himself the greatest of the sons of Geo. Wilkes. He has Martha Wilkes 2.08, race record 2.08 1-4, Harrietta 2.09 3-4, McKinney 2.11 1-4 and 36 others in 2.30 or better. Stella Rolfe got a race record of 2.35 and had she been properly handled would have been one of Nelson's fastest as she is one of his handsomest daughters. NELSON WILKES will be trotted after his stud season is over. He can show fast and is fine, strong and handsome at every point. Terms \$15. to warrant, at Guy Edward's stable Fairfield. For extended pedigree etc. apply to,

J. A. DAVISON, Owner, Waterville, Me.,

OR G. C. EDWARDS, FAIRFIELD, ME

BONNIE HANS,

By BONNIE BOY (sire, at 7 years of age, of Bonnie Belle, 2 years, 2.18 1/4, 3 years, 2.17 1/4, Jettie, 3 years 2.18 3/4, Jarenta, 2 years, 2.27 1/2 Ninnescah, yearling, 2.42, Bonnie, yearling, trial 2.28.

Dam of BONNIE HANS, Bessie Gilpin, (dam of Favors, 2.12 1/2, 3d heat in a race which he won).

Second dam, Kitty, by Hamlin's Patchen, sire of the dam of Belle Hamlin, 2.12 3/4, (2.12 to pole), Globe, 2.14 3/4, (2.12 to pole), Justina, 2.20 (2.13 to pole).

BONNIE BOY by Patchen Wilkes, 2.20 3/4; dam Bonnie Maid by Sherman, 2.23, son of George Wilkes 2.22.

PATCHEN WILKES (sire of 6 below 2.20, average time of the 6, 2.16 1/4), by George Wilkes; dam Kitty Patchen, (dam of Georgiana, 2.26 1/4) by Mambrino Patchen.

Second dam Betty Brown, dam of Anglin 2.27 1/2, Wilkes Boy, 2.24 1/2 (sire of Nelly A., yearling, 2.29 3/4, 2 years old, 2.19, Angelina, 2.12, Constantine, 2.12 1/2 and 4 others belows 2 20).

Sidney Union,

By SIDNEY, 2.19 3/4, (The greatest sire of early speed living); dam Omata by Aberdeen, (full sister to Kentucky Union, 3 years, 2.13 1/2, the best 3 year-old on the turf in 1892) second and third dams in the great brood mare list.

From the family of Aberdeen comes the champion 2 year old pacer Lena Hill, 2.12 3/4.

Francisco,

By STAMBOUL, 2.07 1/2, dam Nola (could trot below 2.30 and pace below 2.20) by Nutwood, 2.18 3/4, second dam, Belle Byran, dam of Claus Almont 2.26 1/2.

Terms of each, \$25 to warrant. For particulars address,

JAMES EDGEComb, CORNISH ME.

Or Henry S. Sprague, 85 Washington Street, Haverhill Mass.

WONDERFUL

Electric Belts.

CURED

After Everything Else Failed.

Will cure without medicine all Weakness resulting from over-taxation of nerve forces; excesses or indiscretion, as nervous debility, sleeplessness, languor, rheumatism, kidney, liver and bladder complaints, lame back, lumbago, sciatica, all female complaints, general ill health, etc. This electric Belt contains Wonderful Improvements over all others. Current is instantly felt by wear or we forfeit \$5,000.00, and will cure all of the above diseases or no pay. Thousands have been cured by this marvelous invention after all other remedies failed, and we give hundreds of testimonials in this and every other state.

Our Powerful Improved ELECTRIC SUSPENSORY, the greatest boon ever offered weak men, FREE with all Belts. Health and Vigorous Strength GUARANTEED in 60 to 90 days. Send for Illustrated Pamphlet, mailed, sealed, free, to

DR. A. T. SANDEN, Inventor.

826 Broadway,

New York City.

A Wonderful Cure From Maine.

THORNDIKE, STA., ME., Jan. 3 '94.

DR. A. T. SANDEN,

Dear Sir:—I want to give for publication my testimony, which I want all of my friends and everybody who are suffering as I was, to read. I will as briefly as possible state my case to you.

Four years ago I had LaGrippe. It left me with a bad kidney trouble and weak back, also diarrhea. A year ago last September I was taken with nervous dyspepsia. I was so nervous I could not sleep nights. I tried many kinds of medicine which only afforded temporary relief. Last June my feet and legs began to swell. They were swollen to nearly twice their natural size. I was also swollen bad across my kidneys and liver. I could not lie down, and was so weak I could scarcely walk across the room. I was examined and treated by some of the most skillful physicians. They pronounced it dropsy and failed to help me. I had about given up all hopes of getting help, when I chanced to read of your Electric Belts. I concluded to try one as a last resort, but I had grave doubts of its doing good in my case, for I was given up to die by friends and neighbors. I purchased one of your No. 6 Belts July 12th, and I can truly say it saved my life. In less than forty-eight hours after wearing the belt the swelling had left my kidneys, and in one week my feet and legs were nearly back to their natural size. In three weeks I could eat anything, my appetite craved, and could sleep like a child. I am not nervous and consider myself better than I have been for years. Electricity started the circulation that medicine failed to reach. My wife has worn my belt and it has entirely cured her of chronic constipation and female weakness, for which she has doctored for years. We cannot say enough in praise of your wonderful belt. I advise all suffering humanity to purchase one of Dr. Sanden's Electric Belts.

Very gratefully yours,

I. R. BLETHEN,

Box 41 Thorndike Sta., Waldo Co., Maine.

Sciatica and Lame Back Cured.

MONSON, ME., Feb. 29, '93.

DR. A. T. SANDEN,

My Dear Sir:—In April, 1891, I was attacked with a severe case of sciatica, which confined me to the house. Your agent, C. W. Morrill, called to see me. He very generously offered to let me try one of your Electric Belts. I put it on and found relief. I had so much faith in it I ordered one at once. Whenever I feel any weakness I use the Belt, which helps me very much; it also removes any pains from my back. I can cheerfully recommend it as being the best pain eradicator I ever used.

Yours sincerely,

E. R. HAYNES,

Monson Maine.

Catarrh and General Debility Cured.

EASTPORT, MAINE, Feb'y 2d, '94.

DR. A. T. SANDEN,

Dear Sir:—I send these lines to let you know what your belt has done for me and you may use them for the information of other sufferers. It is almost impossible to believe what wonders your belt has wrought in me, but it is a living truth, and I wish all sufferers could be convinced what a power for good there is in your invention. I got the No. 5 belt on the 17th of October last and put it on that same evening and have worn it 3 to 4 hours every evening since. In a few days all the aches and pains I had all over left me, even that dreadful pain in my stomach was gone and my bowels acted regularly. Now my Nerves are steady and appetite is good and I get perfect refreshing sleep without those awful dreams. When I got your belt my breast was all broke out with sores and had been for some time. These are all healed and the catarrh which had troubled me so long is also gone. I let two of my friends try the belt a few times and it did them so much good they will soon order from you. I would not take \$1,000 for mine if I could not get another. If people only knew what your belt is they would not fool away their money and time on these many humbugs because they are cheap. Considering what your belt is and does it is the cheapest in the world, and I wish all sufferers knew what I know about it.

Yours truly, THOMAS HENDERSON,

Eastport, Washington Co., Maine.

Lame Back and Side Cured.

MONSON, Me., March 1.

DR. A. T. SANDEN,
Dear Sir:—I feel as if I ought to say a few words about the great good your belt has done in my family. My wife was a great sufferer from lame side and back, and was entirely cured by your Belt in a short time, and I cheerfully recommend it to all that may be suffering with a lame back or side. We tried many other remedies without getting any relief until we got your wonderful belt.

Yours truly,

G. P. POOLE,
Monson, Maine.

-1894-

Ossipee Valley Fair Colt Stakes

AND

2.40 STAKE RACE.

\$700 GUARANTEED.

THE OSSIPEE VALLEY

Union Agricultural Association

Failure to name colt, or to make payment at dates specified, forfeits nominations and all money's paid. Stakes divided 50, 25, 15 and 10 per cent.

Hay and straw will be furnished free to starters. One or more colts can enter and start from the same stable.

Address all communications and entries to

JAMES C. AYER, SECRETARY,
CORNISH, MAINE.

Bean's Perfection Feed Bag.

Pat. April 11, 1893 and Jan. 30 1894.

Made of canvas and galvanized iron. Two Bags, one inside the other, with space between them for eight quarts of oats, which drop through into the basin, gradually filling it about one inch, directly under the horse's mouth. The basin is oblong in shape, with a screen in the forward end where the oats never come in contact. While the horse is eating, his nose is at the screen, through which he breathes as freely as though he had no bag on. Four quarts of oats slowly fed where the horse gets them all is of more value than six quarts gormandized and wasted on the street—This bag positively cures the habit of throwing the head—Don't lose sight of this fact.

One-tenth of the oats fed from the old bag and buckets are lost—Why not use our bag and save them.

Look along the street where the horses are fed by the old methods of feeding, is it either Justice or economy?

Use this Perfect and Humane Method, it will pay you to do so.

IT COSTS NOTHING IF NOT AS REPRESENTED.

Try one sample and be convinced. Every dealer who has ever sold Feed Bags should send for samples and prices.

ARLINGTON FEED BAG CO.,
15 CORNHILL, Room 2, BOSTON, MASS.

CHORALIST 14516

Sire CHIMES, the greatest sire of his age that ever lived, having at the age of nine years 15 in 2.30 list, 9 of them with race records below 2.20, including the world's champion 3 year old, FANTASY, 2.08 3-4.

First dam by Hamlin's Almont, Jr., the greatest sire of the Almont family: 2d dam a producing daughter of Strathmore; 3d dam by Albion; 4th dam has 5 in 2.30 list. The following great brood mares appear in Choralist's pedigree: Green Mountain Maid, with 9 in 2.30 list; Beautiful Bells, with 7; Minnehaha, with 7; Ned, with 5; Maggie Gains, with 3 producing sons.

CHORALIST is a mahogany bay, star, hind ankles white, stands 16 hands, and is well proportioned. Will make a short season in the stud, then trained for a fast record, which it is believed he is capable of taking.

TERMS, to insure, \$50

ERIN 4372 Race record 2.24 3-4. Sired by BELMONT, dam Eventide dam of Kremlin 2.07 3-4, Evermond, 2.24 1-4, Erin, 2.24 3-4, etc., making Erin a brother to Nutwood, on his sire's side and to Kremlin on his dam's side.

Erin is a grand individual, standing 16 hands, dark bay, with black points. His breeding is surely great. TERMS, \$25 to insure.

ORRVILLE 3317 Race record 2.27 3-4, fifth heat, over Topsham half-mile track.

Sire Redwood, by Belmont, 1st dam by Daniel Lambert; 2d dam by Vermont Black Hawk; 3d dam, thoroughbred. Is bred for a race horse and has proved himself to be one. Some of his get are expected, this season, to prove that he is the sire of race horses. Bright bay, 15 1-2 hands, and as near perfection every way as is often seen. TERMS, \$20, to insure.

For tabulated pedigrees and particulars address,

39-3m

FLINT BROTHERS, Cornish, Maine.

NEW ENGLAND
LIVE STOCK INSURANCE CO.

HOME OFFICE 120 TREMONT ST. BOSTON, MASS.

Insures Horses and Mules Against Death by Disease or Accident.

HON. JAS. HARWOOD, PRES. HON. JOHN HASKELL BUTLER, TREAS.

GEO. BURTON, VICE PRES.

LEONARD TILLINGHAST, SEC.

AND GEN. MANAGER.

Admitted to do Business in the State of Maine by Special Act of the Legislature.

J. R. SHEDD 2.19 1-4.

Sire's Family.

Sire, RED WILKES, 2.40:

Sire of 88 in the 2.30 list, including 20 in the 2.20 list;

Sire of 12 producing sons, including the sire of Florida, 2.18 1/4;

Sire of 9 producing dams, including dam of Evangeline, 2.11 1/4;

Red Wilkes, by George Wilkes.

GEORGE WILKES, 2.22.

Sire of 78 in the list. Sire of 74 producing sons including the sire of Martha Wilkes, 2.08, and Moquette, 2.10.

Sire of the dams of 50 in the list including Manager, 2.09 1/4, and Delmarch, 2.11 1/4.

Dam's Family.

Dam, BELLE ERICSSON:

By Ericsson, son of Mambrino Chief, 11;

Second Dam by VANDAL, son of Imp. Glencoe;

Third Dam by PILOT, Jr., Sire of dams of 36 in the list, including Jay-Eye-See, 2.06 1/4, Maud S., 2.08 1/4, Electricity, 2.17 1/4.

ERICSSON, 2.30 1-2:

Sire of 6 in the 2.30 list. Sire of the dams of Moquette, 2.10, Bellman, 2.17 1/4, and ten others in the list. A son of Ericsson sired the dam of Belle Vara, 2.08 1/4.

J. R. SHEDD is the sire of Woodshed four-year-old record, 2.13 1/4. Shedd's colts are noted for speed and beauty. In his turf career he showed himself to be a race horse of the best quality. He has a two-mile wagon record of 5.14, made at four years of age. His disposition is perfect, and a child can go around him with safety. Shedd was foaled in 1882, is a beautiful bay in color, stands 15-2 and is well built.

Service Fee, \$100, with usual Return Privilege.

GOLDDUST, MORGAN STALLION **GOLDEN CROSS 14773.** **GOLDDUST, MORGAN STALLION**

"THE IDEAL ROAD HORSE."

"The handsomest, gamiest family of Roadsters, and as regards style, endurance and beauty they have certainly no equals."

Sired by Indicator 1243, record at 19 years of age 2.23½ (sire of Fred G. 2.30, Ottawa Maid, trial, as a two year old 2.30, Inverness, as a two year old 3.00), by Goldust 150 (sire of Lucille Goldust 2.16½, Fleety Goldust, 2.20, Indicator, 2.23½, Kolla Goldust, 2.25, etc.), by Vermont Morgan, out of a daughter of Arabian Zileadi.

1st dam, Linda Wilkes, by Lever B. 10703, by Red Wilkes 1749, out of Sally B. (dam of Toinette, 2.30, Fulcrum, trial 2.25, Lyeurgus, 2.25, and the granddam of Early Bird, 2.15½).

2d dam, Dolly, by Lexington Goldust 4203 (sire of Sir Roger, 2.23½, grandsire of Black Diamond 2.19½, and grand-dam of Florida 2.14½), by Goldust, out of Eugenia, by Lexington.

3d dam, Capelin, by Jehu Morgan (sire of dam of Fleety Goldust, 2.20), by Black Hawk 142, out of a daughter of Gifford Morgan.

4th dam by Gano (sire of dam of Lady Thorn, 2.18½, and sire of the dam of Mambrino Patchen, the broodmare sire of the world), by American Eclipse.

5th dam by Aratus, by Director, by Sir Archy.

6th dam by Blackburn's Whip by imported Whip.

7th dam by Kennedy's Diomed, by imported Diomed, out of an imported thoroughbred mare.

Many of the great performers are richly bred in Goldust lines as Johnston 2.06½, Gold Ring, 2.12½, Gossip Jr. 2.13½, Indianapolis Boy, 2.13½, John W. 2.13½, Nelly W. 2.14½, Rosalind Wilkes, 2.14½, Clara D. 2.14½, Sprague Goldust, 2.15½, [nearly all to high wheels] and hundreds of others better than 2.30. To the Morgans, through other families, may be traced a great percentage of our best trotting and road horses. It is not only in speed that the Goldust branch excels; with that essential element they combine great beauty and wondrous road powers, together with endurance derived from both Morgan and thoroughbred blood coming through Lexington, Boston, Glencoe, Vandal, Grey Eagle, Buzzard, Whip, Barefoot, Trustee, Gano, etc., in thoroughbred lines.

Golden Cross 14773 is a golden chestnut, 16½ hands, and weighs over 1200 pounds; foaled in 1889. He has the beauty of the Goldusts, is strong, nervy, game and prompt in action, is perfectly gaited, of kind and gentle disposition and has every indication of extreme speed, and is now a grand road horse. His first colts are coming yearlings. There is a growing interest in the Goldusts, as was seen at the Exposition in Chicago, where they received a large percentage of the awards. We shall be pleased to send a full description with pedigree and records to all who will favor us with their names, whether they propose breeding or not, and visitors are always welcome.

Fee, for the season of 1894, a few approved mares will be bred for \$35, with the usual return privilege. Goldust Stock for sale.

EDWARD S. PAYSON & CO., Lexington, Mass.

Grassland Stock Farm.

ROCHEFORT

BROWN COLT, FOALED JUNE, 1891,

Sire ROCKEFELLER 6121, Record 2.29 1-2, and Sire of Granieta (4) 2.25 1-2
Callcalli (3) 2.33, etc.

Dam Maud by Richmond 2.33½, by son of Draw horse 114; second dam by Drew horse 114. Richmond's dam by Eaton horse 122.

Rockefeller is full brother to Electioneer (Cambell's) 2.17½, by Electioneer, sire of Arion (4) 2.07½, Sunol 2.08½, Palo Alto 2.08½, and 145 others in 2.30.

Rockefeller's dam Edith Carr, by Clark Chief, sire of Croxie 2.19, and several other 2.30 performers, the dams of Martha Wilkes 2.08, Phallas 2.13½, Majolica, 2.15, etc.

ROCHEFORT is a nice individual, and is promising as regards speed.

Terms, \$25, to warrant.

39-

L. W. NASH, W. Kennebunk, Me.

"BREED TO SPEED!"

2.31 00000000000000000000 **MERRILL** 00000000000000000000 2.31

One of the fastest sons of Nelson 2.09, Chestnut stallion with Star 16 hands high, weight 1100 lbs. foaled 1889. Sire Nelson 2.09 with 15 in the list in 1893. First dam Tinsmith Maid by Watchmaker 2.31 1-4. Trial 2.22 1-2, sire of Jeweller 2.28, Harmoun 2.28 3-4 Young Watchmaker 2.30. Second dam by Winthrop Morrill by Young Morrill. MERRILL is a very strong made and handsome horse of excellent disposition and has always been phenomenally fast. As a yearling he won his race at Bangor getting a mark of 1.23 1-4, last quarter in 40 seconds. He got his record of 2.31 at Mystic as a three year old last half in 1.14. At Rigby Park last season he started in a field of old campaigners with a green driver. He was in ninth position first heat and finished a close second. Was timed separately in this heat in 2.15 3-4 and in second heat in 2.17. All heats in this race was below 2.20 and MERRILL was the most dangerous competitor in the field. He will be with drawn from the stud July 1st and it is confidently expected that he will get a mark of 2.15 or better before the close of the season. I have decided to place this grand young horse within the reach of all. He will make the season of 1894 at \$35 by the season \$50 to warrant, payable at time of first service, by cash or satisfactory note. Mares taken to and from trains free of cost and boarded at low rates. For further particulars address,

F. J. MERRILL, Damariscotta, Me.

THE BEST TIME

For the Last Five Years to Breed Horses.

WHY?

Because comparatively few has been bred for two or three seasons.
Because hundreds of culls have been disposed of and their breeders have learned a lesson.
Because good ones are selling now, in a time of business depression at fair prices.
Because you can get the service of tested sires at a low price.

JUST LOOK!

Due care will be exercised, but all accidents to mares at owner's risk. Mares taken to and from the cars free of charge. Address,

FRANK P. BECK, Augusta, Me.

For Pedigree, see circular which will be mailed upon application.

THE KENTUCKY STALLION SHIELD.

The Lightest, Cleanest, Best Fitting and an

Absolute Cure and Preventive of Self-Abuse.

PRICE \$5.00
WEIGHT ONLY 12 OZ.

The best evidence of merit is in practical success. The Kentucky Stallion Shield has been on the market three years, and last year, 1893, though a dull year and horses declining, was by far our best year. It is the lightest, weighing but 12 oz., perfectly clean and no weight on horse's loins. It is easily kept clean and cannot become foul, the horse can extend his rod and urinate, but cannot abuse himself, and neither will it cause him to masturbate in his sheath, which, if once begun, cannot be stopped, as shields that do not allow the horse to draw its rod will certainly do. We will guarantee perfect satisfaction or money refunded. Give it a trial. It is the only shield that is perfect.

HEADQUARTERS FOR TURF GOODS

Our shield is the acknowledged leader, and our boots wherever tried have given the highest satisfaction. In point of excellent of stock, superior and careful workmanship in every detail, and perfection of fit, they have no equal. The great PIXLEY 2.08 $\frac{1}{2}$, the greatest race mare of 1893, wore our boots in all her races; that fact alone is better than a page of testimonials; they were also worn by Anderson's NIGHTINGALE 2.10 $\frac{1}{2}$, and will be worn the season of 1894 by the great HARRIETTA 2.09 $\frac{1}{2}$. Call for our shield and horse boots and turf goods generally.

CHARLES W. COVELL, 213 Main Street,

SIGN—Big Gray Horse in Show Window.

LEWISTON, MAINE.

SEASON OF 1894.

16718 WARICK 16718

Sired by Warden, record 2.29 $\frac{1}{2}$, brother to Viking 2.19 $\frac{1}{2}$, and Waterloo 2.19 $\frac{1}{2}$, son of Belmont 64 and Waterwitch.Dam by Almont Eclipse 7795, son of Almont 33; second dam Deceitful 2.34 $\frac{1}{2}$, by son of Old Drew.

WARICK is a large, handsome colt, with substance and finish; stands 16 hands high; bay, no white. Foaled April, 1891. His gait is pure, easy and rapid, and gives every indication of being fast.

He will serve a limited number of approved mares at the low fee of \$15 to insure.

Will stand at the stable of

Dr. J. C. CALDWELL, BUCKFIELD, ME.

Write for circulars giving full description and tabulated pedigree.

Dr. CHAS. R. WOOD,

Veterinary Editor American Horse Breeder,

Successor to THE LATE Dr. ROBT. WOOD,

SPECIALIST

In Surgery, Dentistry, Foot and Leg Lameness.

Twenty-five years' experience in the treatment of diseases of domestic animals. Refers to all well known horsemen in New England. Dr. Wood makes a specialty of the castration of stallions and redgelings. Also performs a special operation for spavins, which cures 90 per cent. of all cases.

ALSO PROPRIETOR OF

Wood's Famous Specific Remedy the Stable Requisite for Colic and Distemper in Horses.

The great number of valuable horses that die annually, suddenly, from that dreadful disease, colic, and the almost helplessness of their owners to check the rapid progress of the disease, has induced Dr. Wood to prepare a remedy, which, from his extensive practice he has found to be, in nearly every case treated, infallible, and at the same time which can be quickly and easily administered. This cure does not deteriorate with age. For a long period it has been used extensively by leading New England horsemen, and has been their main reliance on all occasions. Such prominent men as George G. Hall, George W. Bixby, James Golden, James R. Wood, Waldo Pierce, F. H. Foster, F. R. Sargent, Thomas McLaughlin, J. H. Richardson, Bob Stuart, James G. Tarr, I. E. Currier, John S. Blanchard, J. H. Taylor, are loud in its praise. Dr. Wood has made it his study with great success, to so condense the active principles of this remedy that they are now consolidated into a very small compass, enabling it to be administered easily and act quickly, which is vital in checking the rapid strides of the disease. By the prompt administration of this remedy the disease will very seldom take the form of enteritis (inflammation of the bowels), which is so frequently the follower of colic. The lives of several valuable horses which have recently died might have been saved had this remedy been given them at the first appearance of the trouble. Chronic scouring also yields to this medicine. Chills, fever, and pneumonia, also garget in cows. Full directions accompany each bottle, containing four ounces. Price \$1 per bottle. Liberal discount to the trade. Sent by mail postpaid. Address C. R. WOOD, Veterinary Surgeon, P. O. Box 193, 300 Wilder St., Lowell, Mass.

BELL ODOMETER.

Attached to the axle of a carriage, records the distance, and rings a tiny bell at each mile; neat, ornamental, accurate, durable.

PRICE MAILED \$5.00.

DAVIS, STEBBINS & CO.
BOSTON.

N. E. AGENTS. Send for Circular.

AGENTS \$75 A WEEK AT HOME, using or selling PRACTICAL PLATING DYNAMO. The modern method, used in all factories to plate new goods. Plates gold, silver, nickel, etc., on watches, jewelry, table-ware, bicycles and all metal goods; fine outfits for agents; different sizes; always ready; no battery; no toy; no experience; no limit to plating needed; a great money maker.

2.07 3-4 THE BLOOD THAT WINS 2.08 1-4

THE SEER 2.19 1/2 MAINE'S GREAT RACE STALLION.

Record made second heat in a race, last quarter in 31 3-4 seconds, a 2.07 gait, over regulation track and hitched to high-wheel sulky.

THE SEER, 2.19 1-2, holds the fastest race record for Maine stallion at three, five and six years of age. He is sire of Lou Seer, winner of the yearling race at the New England Breeders Meeting of 1891, and holder of the New England race record for yearling of 1891-2. First full mile ever driven at speed. Also sire of Seersucker 2.30 and Slide which as a two year old was able to show a quarter in 36 seconds. The Seer is sure to sire speed and of the race horse order. Sire Gen. Benton with 22 in the list including Daly 2.15, Lord Byron 2.17, Sally Benton (4) 2.17 3-4, The Seer 2.19 1-2, the dam of Sunol 2.08 1-4 and Truman (4) 2.12 etc. Dam by Electioneer 148 in 2.30 or better including Arion (4) 2.07 3-4, Sunol 2.08 1 4, Palo Alto 2.08 3-4, etc. The Seer, blood bay stallion 15, 1 1-2 hand, weighs 1000 lbs. foaled 1885. \$50.00 to warrant. His season in the stud will be short and to but a limited number of mares.

SIDNUT Foaled May 19, 1890; sire Sidney, 2.19 1/2, forty-one in the list at 12 years of age, sire of Frankton, yearling record, 2.25 1/2 (world's mark) and Fausta yearling, 2.22 1/2 (world's mark). Dam, Patti, by Nutwood, 2.18 1/2, greatest of living sires, sire of the dam of Arion, 2.07 1/2. Second dam, Centennial Belle, by Woodburn, thoroughbred, son of Lexington and sire of Monarch, 2.28 1/2, and Emma Robson, dam of Rowena (2), 2.17; Emaline, 2.29 1/2, and Emma R., 2.27 1/2. Third dam, Bonnie Belle, by Williamson's Belmont, sire of Stemwinder, dam of Directum, 2.05 1/2, thoroughbred son of American Boy. Fourth dam, Liz Givens, by Imp. Landford. Fifth dam, Charlotte Pace, by Sir Archy. Sixth dam by Imp. Resteess. Seventh dam, Green's Celer mare, by Celer. \$50.00 TO WARRANT.

GEN BENTON,
20 in the list.
Dam by ELECTIONEER,
137 in the list.

REDWOOD
8 in the list.
MOLLIE, dam of
Cephas, 2.18 1/2.

THESEER'S first and only 5-year-old has a mark. Gen Benton and Electioneer are still breeding on, there now being 417 descendants in those two families in the list, including the get of their sons and daughters. Reglin's only 5 years old, has a mark. Mollie Matchless, in the great brood mare list, produced Cephas, 2.18 1/2, one of the best race horses ever raised in Maine, and was sired by Matchless, sire of Palma, 2.22 1/2. The fastest Maine bred campaigner out last year had for a dam a daughter of Mutchless. The next fastest had for a grand-dam a daughter of Mutchless. Redwood is the leading living sire of 2.20 speed in Maine. Every line of THE SERF's tabulation is a speed producing strain and concentrates in him a union of the fastest and gamest horse blood of our State.

THE SERF is a blood bay stallion; stands 16-1 and weighs 1100 lbs. Foaled April 19, 1889.

Terms \$25.00 to Warrant.

This horse has a perfect disposition, a fine road horse and when handled for speed will go fast. Will stand for service at my stable 157 Middle St., Rockland Maine at \$20 to warrant. For further particulars address,

W. D. FARNUM, D. V. S., 167 MIDDLE ST., ROCKLAND, ME.

2.21 1-4 ————— TROTTING RACE RECORD ————— 2.21 1-4

Season to close July 15th, when he will be put into training.

St. Croix stands 15-1 hands, weighs 1050 pounds, bay black points, perfectly sound and kind. He has always been sensationally fast. His three-year-old record of (2:54) was no measure of his speed. As a four-year-old he had five week's training, started in five races, winning four of them getting a race record of (2:28 1-4) and had speed enough to have won the other, but got second,—four of the five races being against aged horses. As a five-year-old, he was only out of the stud three weeks, making his first heat in 2:22 1-4, 2d in 2:24 1-4, 4th, against a field of seven horses—all aged (2:09) the honor of the fastest five-year-old record of Maine but while Nelson made his in a trial against time, on a mile track, St. Croix made his in the first heat of a two-year-old race on a half-mile track. Good judges say he could have trotted that mile in 2:10, as he was jogged from the distance flag to the wire. As a two-year-old he got six living foals, four of them can show 2:40,—one of them, St. Croix, Jr., has a race record of 2:51 1-4. We look for him to go in the list this fall, and think the other three will not be far behind, if handled. The other two can show as well with the same handling. His younger foals are proving equally as well. St. Croix is by Wilkes, one of the greatest if not the greatest sons of proven sires. Wilkes has Col. Osgood, 2:18 3-4; St. Croix, 2:21 1-4; Fred Wilkes, 2:24 1-2; Brownie, 2:24 1-2; Johnnie Wilkes, 2:27 1-2; Hazel, 2:28 1-4; Glimmer 2:30. St. Croix's dam is by Gideon, son of the dams of Nelson, (2:09); Independence (2:21 1-4); Glenarm, (2:23 1-2); 2d dam by whalebone Knox; 3d dam, S. T. B., by Vermont Black Hawk.

For further particulars, address, WEBSTER WILLIAMS, NORTH ANSON, MAINE.

11,689 HALEY 11,689

But this is by no means a limit of his speed. He won his races without being extended and besides being a trotter he is a great road horse. I don't think there is or ever was a horse that could go more miles in a day than his dam, Graynose, 2.31 1-4 and road qualities are what the most of our stallions lack. He was sired by a stallion king and his dam was by Fearnought, 2.23 1-4, a king in his day. He comes by his speed honestly, his ancestors being all trotters and producers of trotters. With the same chance he should outrank his sire, Nelson, 2.09, for early and extreme speed. Haley's dam, Graynose, 2.31 1-4, was out of Lady Balch and so was the dam of Young Rolfe, 2.21 1-4, the sire of Nelson, 2.09. He is a bay horse 16 hands high with the best of feet and legs, can trot without boots or weights and he always has his speed.

One mile below depot. South Gardiner, Me.

Cash or satisfactory note at first service. Mares not proving with foal can be returned next season free. Brood mares 75 cents a week on grass, \$2.50 on hay and grain.

W. D. HALEY,
SOUTH GARDINER, ME.
May 25 94.

Claynos, 4382, dark bay, small star, bre by A. J. Alexander, Spring Station Ky. in 1885, weighs 1150, stands 16 hands, sound, stylish, gentle, speedy and as game as any horse.

Sire. Onward 2.25 1-4, son of Geo. Wilkes 2.22 and old Dolly (one of the **VERY GREATEST** of speed, producing dams dam of Director 2.17 (sire of Director 2.05 1-2, Directum 2.05 1-4) Thorndale 2.22 1-4 (sire of Elwin Thorne 2.16 1-4), Onward 2.25 1-4 (sire of Rose Leyburn 2.15 1-4 and 82 others); Czarina 2.21 John F. Payne 2.45 1-2 at 3 ys. (sire of Don Payne 2.18.) Winona (dam of Pretender, sire of 13 in the list) McCa (dam of Mavilla 2.27 1-4).

2d dam Woodbine, dam of Wedgewood 2.19, sire of 29 in 2.30; Woodford Mambrino 2.21 1-2, sire of 15 in 2.30; Monaco, sire of 19 in 2.30; Weisbaden, sire of 2 in 2.30; Silence, dam of 2 in 2.30...
3rd dam Singleton mare.

The breeding of Claynos ranks him as one of the very best bred stallions in Me. His oldest colts are but 2ys old and are as fine in every respect as any in New England. Wherever shown they have been prize winners. Two have been broken and driven some this season and could either of them show quarters in 45 sec. They are uniformly large, solid colors and beautifully gaited

1st Dam, Trinket B. (by Glenn Morrill son of Winthrop Morrill,) a very fast, and one of the finest of road mares.

2nd Dam, Jennie Horn, by Messenger Hunter son of English Hunter.
3rd Dam Lady Horn out of a daughter of Bush Messenger.

Terms \$15. to warrant.

29-15

FOALED JUNE 18, 1888.

is a beautiful dark mahogany bay, 15 1-2 hands high, weight 1050 lbs. Sire Wilkes, sire of Colonel Osgood 2.18 3-4. St. Croix 2.21 1-4, Fred Wilkes, 2.24 1-2 and four others in 2.30 list. Dam, Flossie by Locomotive by Gen Knox. Second dam Purity by Winthrop Morrill. Flossie his dam, is a very fast mare. Her first foal by Black Pilot sold to C. H. Nelson for \$600. Her second foal was JOHNNIE WILKES. His second dam, Purity has a record of 2.34 and has trotted halves in 1.13, quarters in 35 seconds. She was the dam of Oakland Girl 2.31 1-2, trial 2.20; is also full sister to Ben Morrill 2.27. JOHNNIE WILKES got his record last season at Bangor winning in straight heats in 2.27 1-2, 2.28 1-2, 2.28. Barring accidents he will trot in 2.20 or better the coming season. He will make the season at North Anson. Terms \$25 to warrant. For further particulars address,

W. F. French, North Anson, Me.

W. F. FRENCH, —(OWNERS)— P. LETRONEAU.

CEBOLLA - 10510.

3 YEAR OLD RECORD 2.29 3-4. RACE RECORD 2.25 1-2.

Son of Stranger, by Gen. Washington, out of Goldsmith Maid 2.14. First Dam Catawba by Jay Gould 2.21 1-2, by Hambletonian 10. Second dam, Western Girl by Bellfounder 63. Third dam, Fanny, by Wild Harry.

CEBOLLA was foaled in 1888 at the Fashion Stud Farm Kentucky, and is a solid bay, weighs 1050 lbs. and stands 16 hands high. He is pure gaited, has a kind disposition, and his record is no measure of his speed. He will be campaigned for a low record this season. He is the best bred stallion in the state at so low a fee.

Service Fee Only \$35. Limited to 30 Approved Mares.

This Stallion is a full brother to Cebolla, 2.25 1-2. Sired by Stranger 3030. Dam Catawba by Jay Gould 2.21 1-2, bred in Kentucky by Fashion Stud Farm. Foaled in 1892, color bay. This is a very fast colt, large of his age, and of fine finish, and extra gaited, and will take a low record. We have placed his Service at \$25. Limited to 15 approved mares. Season for stallions closes June 1st.

Wilkes 2:25 by Hambletonian 10. Dam May Withers (dam of Nelsonsee). Second dam Queen dam of Haroldson 2:25 3-4 third dam Morgan At the Bangor and Lewiston fairs to see years in succession he won the first premium and the blue ribbon in his class. In 1889 he won the three year old stallion cup 1-2 2:40 and in 1890 the four year old colt stake at State Fair at Lewiston. In 1892 at Bangor fair he won Stallion race, taking the last three in a five heat race, proving himself not only fast but a game race horse. Terms to insure mare with foal \$25.

HAROLDSON 2255 3-4, bright bay 15 3-4 hands high, weight 1000 lbs. foaled in 1891 by Prescott son of Harold sire of Maud S, 208 3-4 and of Lord Russell sire of Kramlin 2 07 3-4. Dam Queen, record 2:42, time in race 2:38 by son of Black Diamond. Haroldson as a three-year-old won every heat in four races and also the stallion cup at State Fair getting a record of 2:39 1-2. As a four-year old he won the Maine colt stake and other colt stakes never losing a heat. This horse is proving to be a great sire his colts take after him and show great speed and fine roading qualities. Will stand at the low price of \$20 to insure mare with foal. Dr. WORTZEL'S GREAT GERMAN

Liver and Kidney Cure.

A sure cure for all diseases of the Liver and Kidneys, Also purifies the blood and aids nature in restoring a wasted and debilitated system,

Besides acting on the Liver and Kinneys it has had unparalleled success with the medical fraternity for the relief and cure of the following:

CANCER, SCROFULA, GENERAL DEBILITY, HEART DISEASE, CHRONIC CONSTIPATION, INFLAMMATION OF THE BLADDER, SKIN DISEASES, DISPEPSIA, HEADACHE, PILES.

This remedy contains no drugs but is purely vegetable being carefully compounded from the best roots and herbs.

Thousands of bottles have been sold and the results have always proved satisfactory, as a few from the many testimonials received by us, will show.

Springfield, Ill., July 10, 1890.

GENTLEMEN:—

I have suffered many years from Dyspepsia. Have tried doctors and their medicine but could obtain no permanent relief. In May 1890 I began taking Dr. Wortzel's Cure, and am pleased to state that I am better than I have been for years. Have been steadily gaining since taking the first bottle.

Yours,

Prof. H. J. WHILDON.

Livermore Falls, Me., Jan. 2, 1890.

Livermore Falls Medicine Co.

GENTS:—

In the fall of '89 I secured a position as fireman on the N. Y. L. E. & W. R. R., and after a few weeks I was taken with what leading physicians pronounced Nephritis of the Kidneys, and was told I had a very small chance for recovery. In fact I was so bad I could hardly move. Was advised by a friend to try Dr. Wortzel's Kidney Cure. I procured a bottle and was surprised at the results. Have taken two bottles and call myself well. I consider this remedy a boon to suffering humanity.

I am very truly yours,

H. E. HAINES.

Livermore Falls, Me., July 6, 1890.

Livermore Falls Medicine Co.

GENTLEMEN:—

I have used Dr. Wortzel's Kidney and Liver Cure and find it a valuable remedy for Kidney and Bladder troubles.

E. A. KEEN.

Columbus, Ohio, Dec. 12, 1889.

Livermore Falls Medicine Co.

GENTLEMEN:—

I have suffered many years from chronic constipation and sick headache, due to over-work and a debilitated system. In November last I began taking your medicine and obtained relief at once. I most cheerfully recommend it to all suffering as I was.

Respectfully yours,

REV. GEO. P. LANDERS,

Pastor Chestnut St. Methodist Church.

Livermore Falls, Me., May 13, 1890.

Livermore Falls Medicine Co.

GENTLEMEN:—

I have been troubled with Brights Disease of the Kidneys for many years. During the winter of '89 and '90 I was unable to perform any work. I consulted physicians but could obtain no relief. In April I began taking Dr. Wortzel's Cure and am much improved. I consider it one of the best of remedies.

J. A. RIDLEY.

Wilton, Me., July 3, 1890.

Livermore Falls Medicine Co.

GENTLEMEN:—

I have suffered for several years with a Kidney trouble. Have tried several remedies but got no relief until I began taking Dr. Wortzel's Liver and Kidney Cure. I have taken one bottle and notice a decided gain.

Truly,

E. B. CURRIER.
